

PIT JACKS LIFT ANY HEAVY TRUCK WITH EASE AND SAFETY

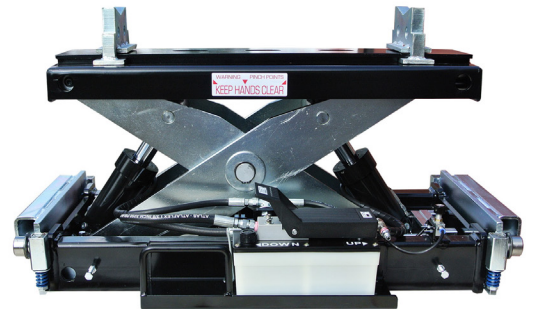

INCREASE PRODUCTIVITY W/ SCORPION JACKS

When it comes to lifting heavy trucks for service or alignment, you don't want to waste time, money, or risk your safety with subpar pit jacks. You want something that is reliable and can easily lift the heaviest of vehicles in just seconds. You want Scorpion Pit Jacks, the most robust workshop pit jack in North America.

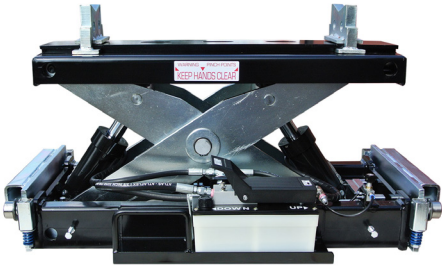

Scorpion Pit Jacks are the result of years of innovation and engineering. They are specially designed to fit any pit or ramp application, thanks to their compact and expandable design. Made with high-grade steel and the finest quality components, they are the most durable jacks on the market. The heavy-duty hydraulics and air motors allow Scorpion pit jacks to surpass all its competitors in performance.

Size – 34” Wide
Expandable Size – 42” Wide

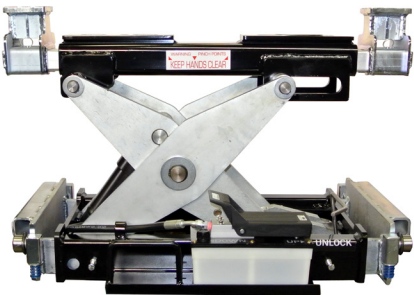

SCORPION PJ25

Capacity – 25,000 lbs.
Dual Hydraulics Arms
Extended Lifting Height – Over 20”
Size – 34” Wide
Expandable Size – 42” Wide

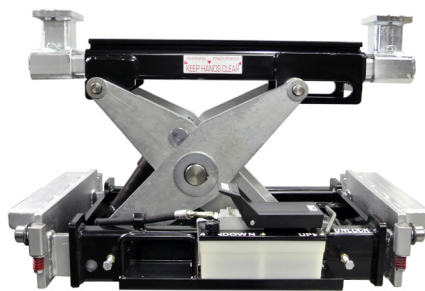

SCORPION P12S

Capacity – 12,000 lbs.
Dual Hydraulics Arms
Extended Lifting Height – Over 20”
Size – 31” Wide
Expandable Size – 46” Wide

SCORPION PJ15S

Capacity – 25,000 lbs.
Dual Hydraulics Arms
Extended Lifting Height – Over 20”
Size – 31” Wide
Expandable Size – 46” Wide

SCORPION PJ25S

Capacity – 25,000 lbs.
Dual Hydraulics Arms
Extended Lifting Height – Over 20”
Size – 32” Wide
Expandable Size – 46” Wide

SCORPION PJ20DH

Capacity – 20,000 lbs.
Dual Hydraulic double acting cylinders
Hydraulic locking system
Dual speed lifting high and regular
Descent control valving
Runs off shop air
Fits the narrowest pits
