50-TRANSIT / Ford Transit Kit

Fits full size Ford Transit single and dual wheel models for ALL lathe models.

DEALER FAVORITE LATHE

BEST FIT **X9**
Cars and All Trucks ★★★★★

X9 Features

- X9 includes all features of 9.2 DRO plus:
- Rigid X-frame lathe body for increased durability
 - Increased spindle bearing separation for smoother cuts
 - Gear reduction transmission and cog belt drive for increased torque and longevity
 - 6 LED On-Board Work Light for improved visibility

X9 UNIQUE FEATURES:

6 LED Lights!

Rigid X-Frame

Includes the same adapters and cutting head as the 9.2, but with a stronger drive train, body design, and LED lighting. This is the better choice for trucks and higher volume shops.

YES! DC POWER LATHE

BEST FIT **X9D**
Cars and All Trucks ★★★★★

X9D Features

- X9D includes all features of X9 plus:
- Heavy duty variable speed DC motor for precision machining and vehicles with locking differentials
 - PFM 2.0 Electronics package with job tracking and maintenance alerts for better compensation and management
 - Performance Plus cutting head with T-nut lock down system for our smoothest cuts, larger performance rotors, and increased durability

X9D UNIQUE FEATURES

DC Variable Speed

Performance Plus

Variable Speed DC Power: The smoothest and quietest we've built. Low maintenance gear box & performance plus cutting head give the best surface finishes available.
