

# ENGINE

T E A M W E R C A T A L O G U E

ENGINE is one of the world's leading swimwear brand servicing Australia's Swimming & Surf communities.

We specialise in performance swimming products for athletes while also providing HIGH quality teamwear to clubs and organisations.

As swimming enthusiasts, we are committed to making quality swimwear that delivers fit, function and performance. From the top, we provide world-class technical racing suits right through to functional and durable swimwear for teams.

It's our attention to detail that makes us different- from the select use of beautiful fabrications through to the construction techniques and hardware attached.

It's our range and diversity that sets us apart.

TOGETHER - We Create

Australian owned company (since 2004)

Company Directors

Olympians Toby Haenen and Andrew Lauterstein

# SUBLIMATION

Our sublimation printing provides any colour combination of colours.

Based on extensive testing we recommend to only use sublimation on the front body or panels. We do not advise sublimation on the back of the body due to high chances of pilling when the body comes into contact with rough surfaces.

Our preference is to use a screen print method for the back of the body on solid fabric.
