STRUCTURE

PLATE / FLAT SEAM

Dimensions en cm (Tolérance de fabrication +/- 3.5%) - Visuels non contractuels - Conception sur-mesure sous conditions de faisabilité technique après accord du bureau d'études et acceptation du devis.* Le panneau de dos sera toujours avec une couture centrale. Structure livrée démontée. La grandeur de la mono-assise oblige techniquement à prendre en considération un « effet de pochage », celui-ci sera plus ou moins prononcé, suivant le revêtement choisi. Le ressenti « moelleux » ou « medium » est propre à chaque personne et peut varier suivant le revêtement et la dimension. Se référer au catalogue / Dimensions in cm (Manufacturing tolerance +/- 3.5%) - Non-contractual visuals - Customized design under technical feasibility conditions after agreement from the design office and acceptance of the quote.* The back panel will always be with a center seam. Structure delivered disassembled. The size of the single-sided construction technically requires a « pocketing effect » to be taken into account, which will be more or less pronounced, depending on the coating chosen. The feeling « soft » or « medium » is specific to each person and can vary according to the coating and the size. Please refer to the catalog
