

Now, you can easily add a toilet to your shed, tiny house, lakeside cabin or hunting lodge.

Introducing the Laveo™
waterless, odorless,
chemical-free
portable toilet.

A Breakthrough in Small Building Comfort & Convenience!

Now there is an innovative, practical and economical way to add or expand the toilet capacity of your shed, tiny home, lake home or hunting lodge without expensive blueprints, permits and renovations. The Laveo™ portable electric toilet by Dry Flush is waterless, odorless, chemical-free, low maintenance and will not freeze. The compact portable electric toilet measures 16" W x 20" D x 18" H and weighs just 29 lbs.

For comfort, the seat and height are standard toilet sizes. When done, users simply push the flush button as they would with a traditional toilet. However, instead of requiring water, extensive plumbing or expensive chemicals, the proprietary Laveo double-layered barrier bag automatically encloses urine and stool in a spill-resistant, odorless way. The dispenser automatically brings in new, clean barrier bag material for the next flush.

Each barrier bag cartridge can handle an average of 15 flushes. Once full, a cartridge may be easily discarded in a trash container. There is no dirty water to dump or chemicals to pour. Installing a new cartridge takes less than one minute.

The self-contained Laveo Dry Flush portable toilet uses 12V DC power with 4.9 amp flush and 0.0 amp idle. Power options include long-life rechargeable batteries, solar chargers and AC adaptors. A charger cable is included. Other options include handrails and privacy shelters. The "go anywhere" Laveo toilet may be permanently installed or easily removed, utilized elsewhere and re-installed whenever needed.

Add it all up, and Laveo Dry Flush is an excellent choice and a smart investment in comfort and convenience in your small building!

Options include: privacy shelter; solar charger; rechargeable battery; battery charger; support rails; and mounting bracket. Visit our website for more details and to purchase online.

Founded in 2012, Dry Flush has rapidly become a leader in high-quality, U.S.-made portable electric toilets. Thousands of Laveo toilets are in use around the world.
