THE VISION IS MOVING

Together we can move forward

ARE WE IN THE DAYS OF NOAH?

Who would have ever thought that in today's world we would be having serious conversations about extraterrestrial life?

If you've watched the news this summer you've most likely heard the name David Grusch, the former Defense Department employee and other military personals who have testified before the US government on their first hand experiences with "UAP's" (Unidentified Aerial Phenomena) .

The question now within the Christian community is are "aliens" real? Does the Bible even address this topic?

In the days of Noah, we can find scriptural context of in Genesis of non-humans or fallen angels mingling with humans on the earth.

Numbers 13:33 even speaks of of giants, also referred to as "Nephilim" which is referred to creatures thate are mixed between human woman and fallen angels.

Colossians 1:16 gives us an interesting insight that may be connected to what we are discussing happening in our skies today.

The bible tells us that God created everything that exists on earth and in the heavenly realms, creatures we can see and creatures we can not see.

The word "heavenly realms" can be defined as heavenly regions. Psalms 29:1 says "Honor the Lord, you heavenly beings." Or sons of God.

There is so much that can be discussed when it comes to this topic. But at the end of it all, we can continuously see that the word of God can be trusted through the test of time to give us the truth of life.
