Environment Control

Tailor your AURA

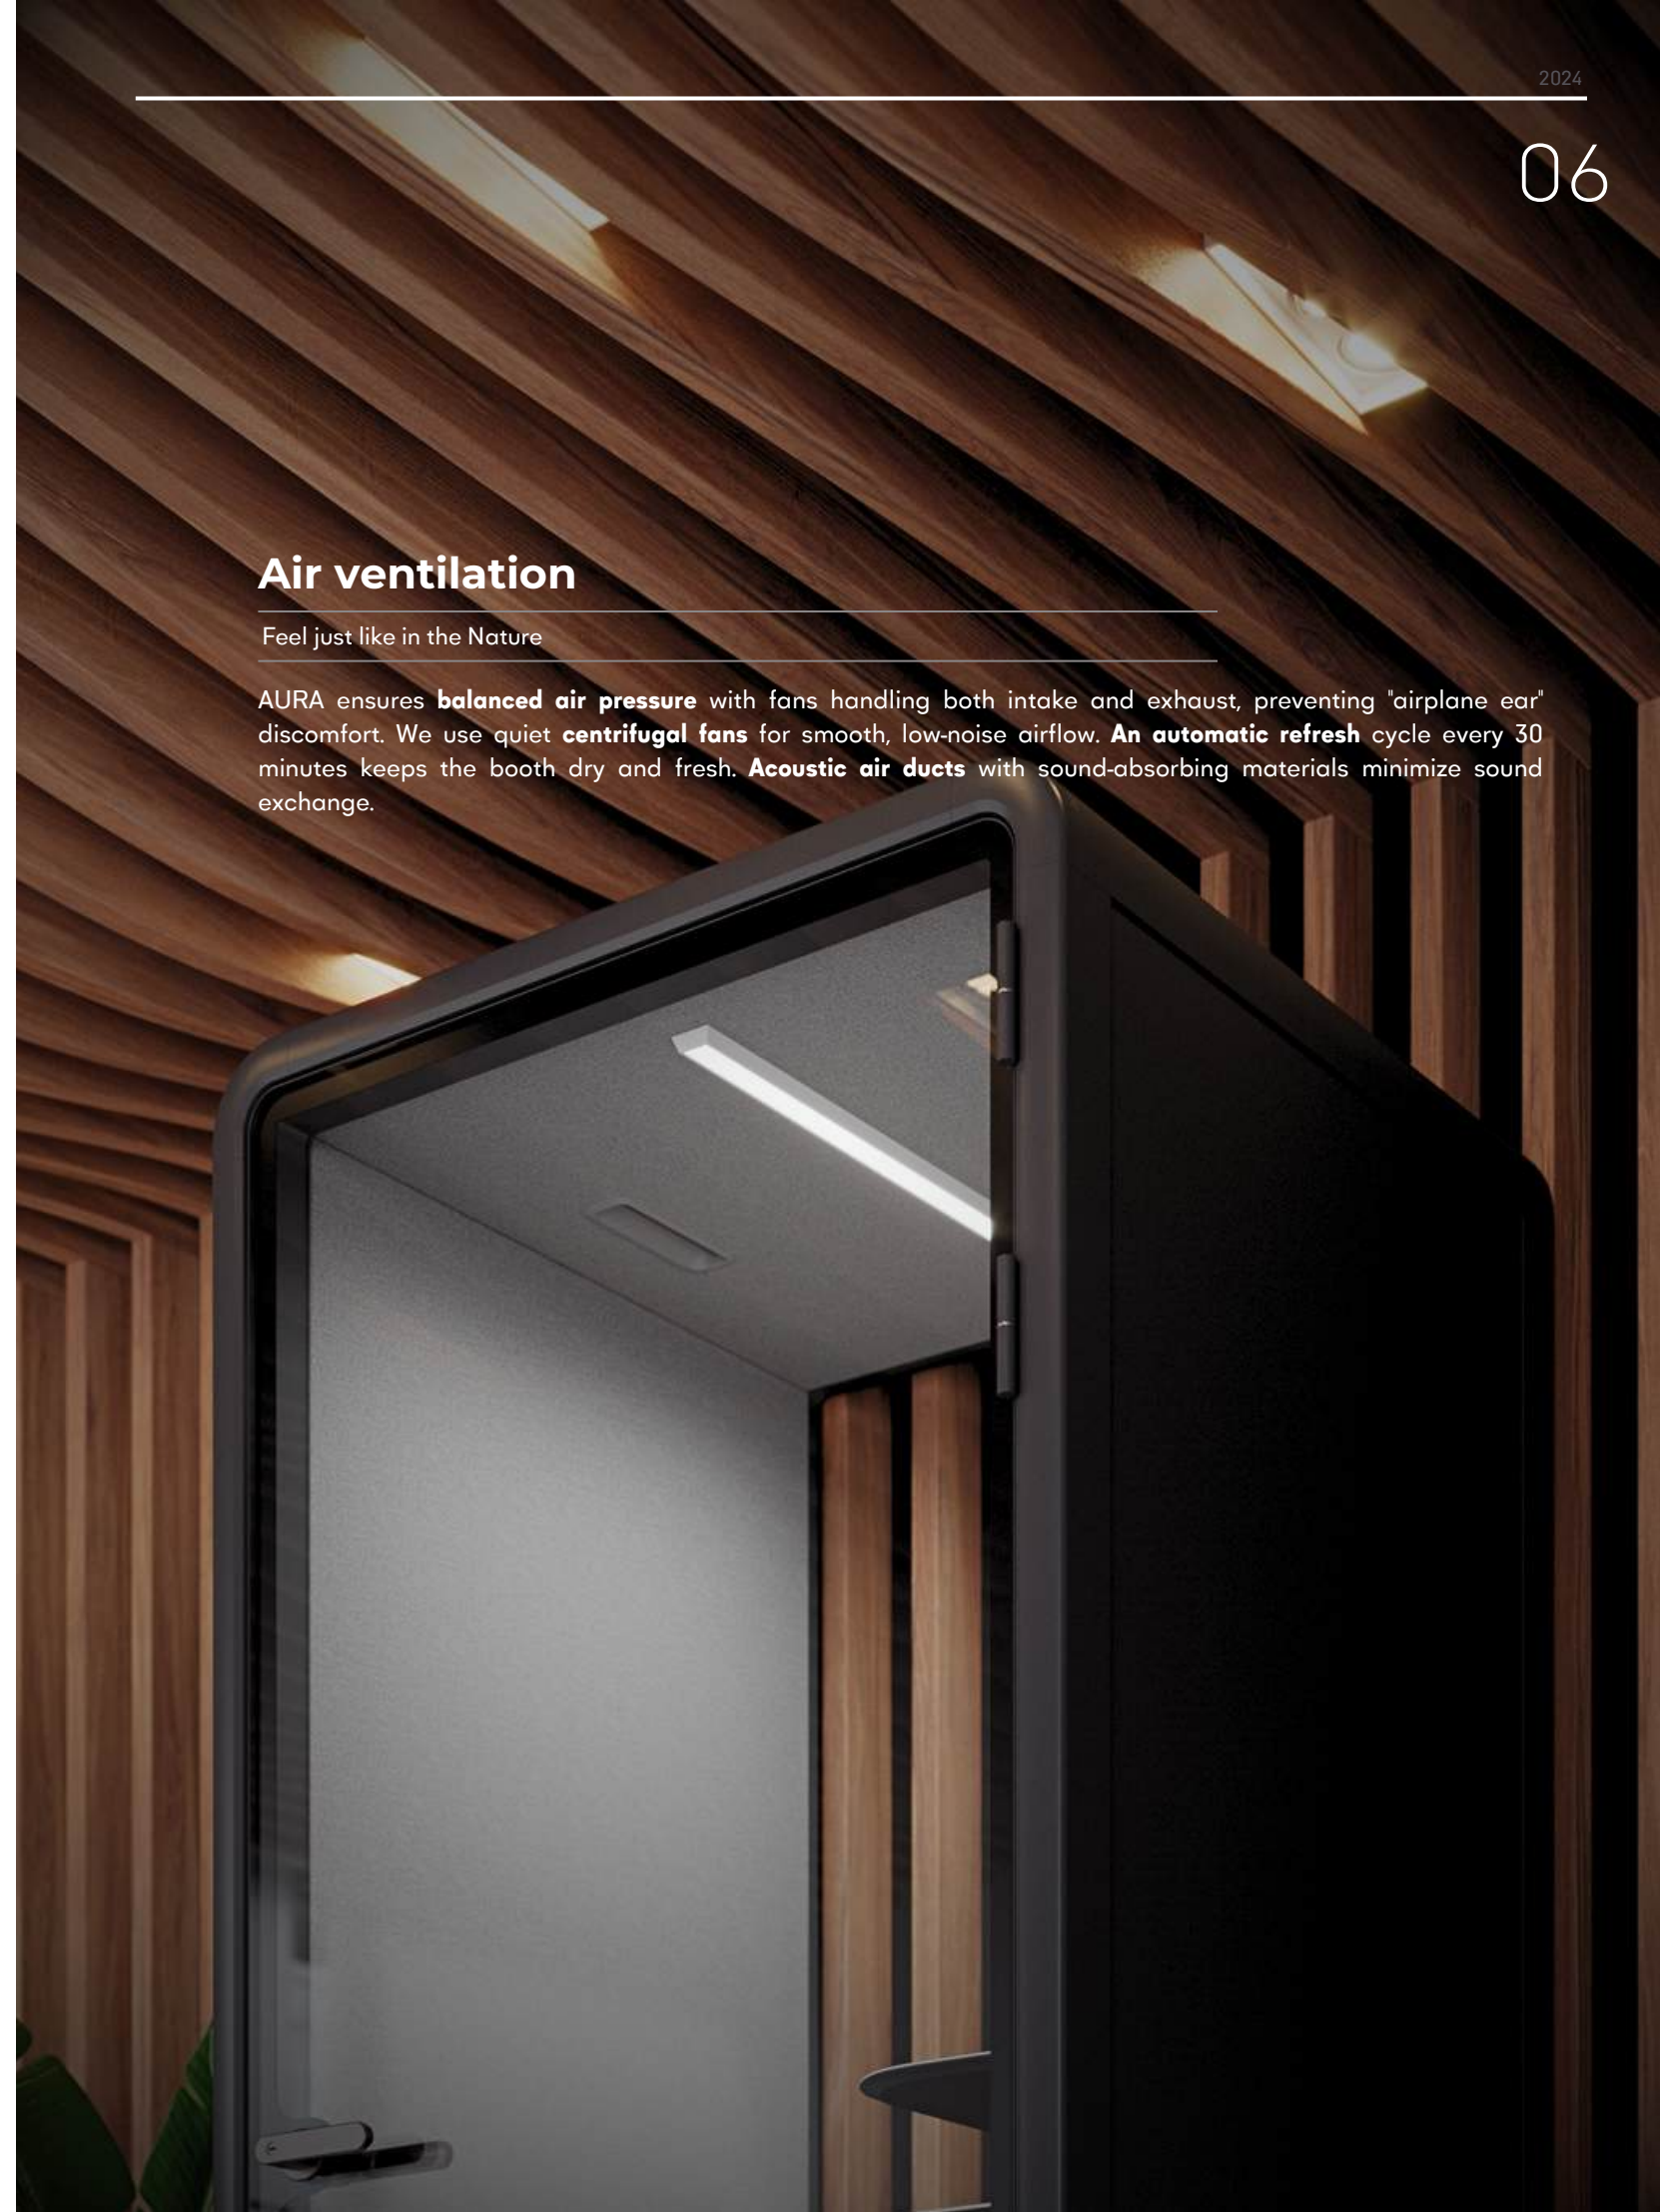

Our **AURA** acoustic booth features a **smart control system** with a dimmer panel for **customizable ventilation** and **lighting**. **Adjust airflow, light strength, and temperature** for a personalized, productive workspace. An **IR sensor** automates settings for energy efficiency, while manual mode allows for further control. Enjoy a comfortable, eco-friendly environment with **reduced energy costs**.

Air ventilation

Feel just like in the Nature

AURA ensures **balanced air pressure** with fans handling both intake and exhaust, preventing "airplane ear" discomfort. We use quiet **centrifugal fans** for smooth, low-noise airflow. **An automatic refresh** cycle every 30 minutes keeps the booth dry and fresh. **Acoustic air ducts** with sound-absorbing materials minimize sound exchange.

Lighting

Essential Eye-caring

Our booth uses OSRAM LED lights with high CRI [92] and glare-reducing lenses for accurate color and reduced eye strain. The flicker-free design ensures comfortable, eye-friendly lighting for extended work periods

Ra 92

Flicker Free

Anti Glare

Details

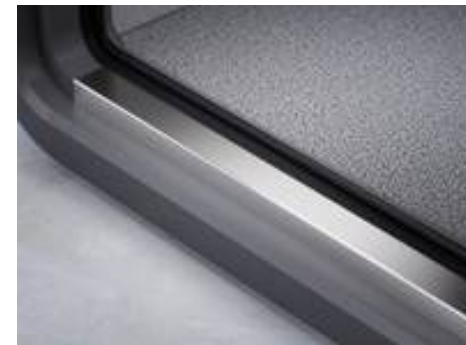

More than just acoustic

We design our booths to captivate and engage, ensuring exceptional user experience with meticulous attention to detail. Our goal is to create a seamless, enjoyable acoustic sanctuary for effortless use.

Magnetic door lock

Lever handle lock with magnetic deadbolt.

Stainless steel door thread

Stainless steel made that you could customize your label on.

Concealed door closer

Concealed cam-action door closer.

15 W wireless charger

Optional 15W wireless charger embedded into table top

Modular power outlet

With USB type A/C, Optional multitype socket and keystone module available.

Compact laminate table

Compact laminate, scratch and chemical resistant, optimal MDF board available.

09

Speech Level Reduction($D_{S,A}$) >29dB

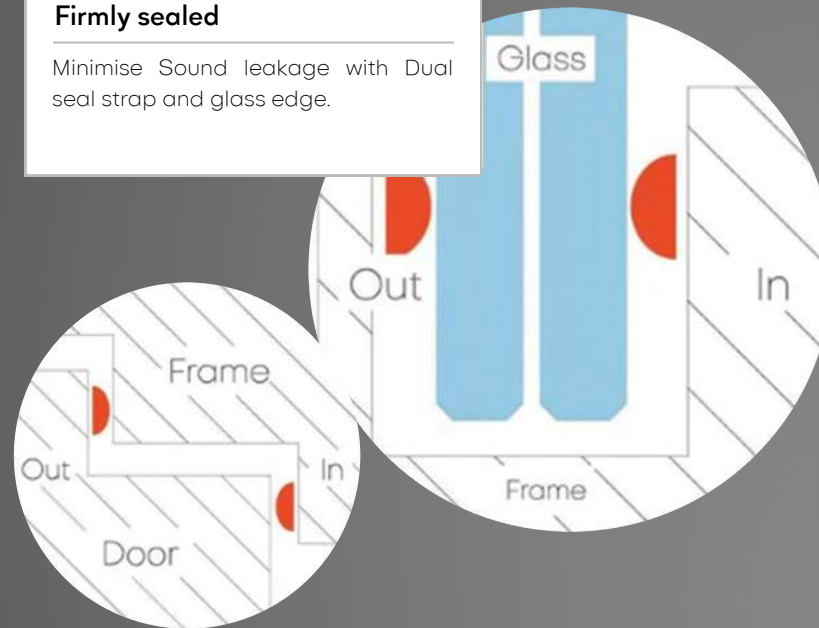

In ISO 23351-1:2020

10

01

Firmly sealed

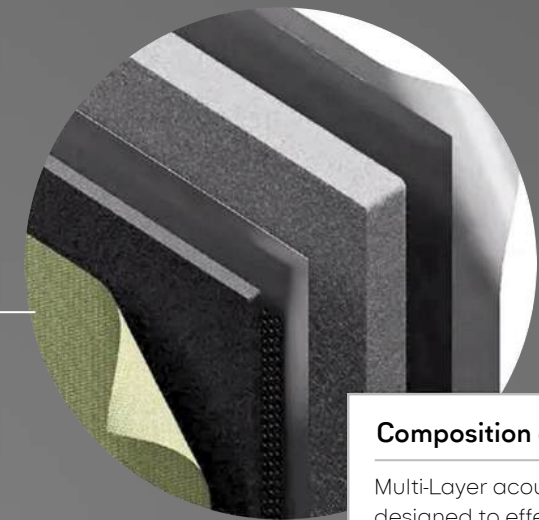

Minimise Sound leakage with Dual seal strap and glass edge.

02

Low-frequency blocked

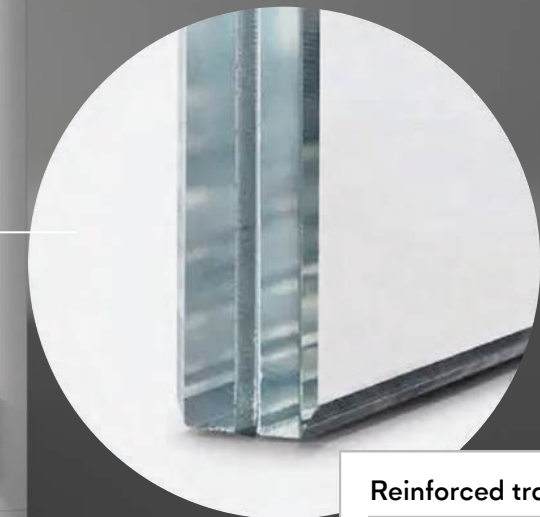

Dampening material to reduce the structure-borne Low-frequency transmission.

03

Composition of wall

Multi-Layer acoustic material designed to effectively block and absorb sound.

04

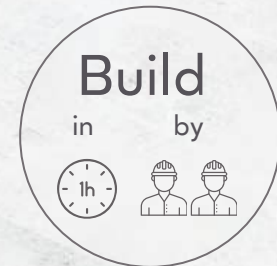

Reinforced transparency

Laminate glass for sound proofing and transparency.

Easy to assemble, move and extend

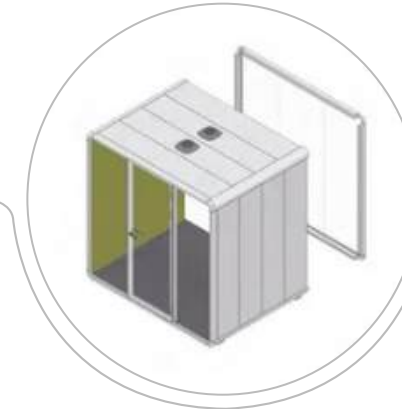

Designed for evolving office

AURA booth is set up in under an hour with just two people. No trimming, bolting, or gluing is needed, generating no waste. All packaging is recyclable for immediate use.

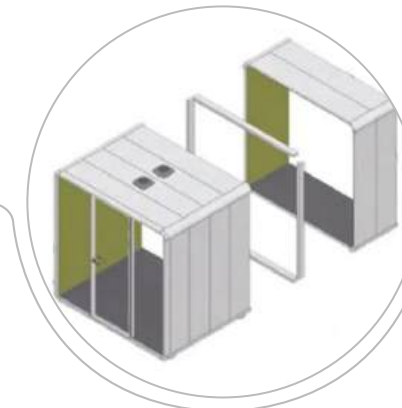

Optional castor wheels allow easy movement and repositioning, adapting to your changing needs and room layouts.

AURA easily expands or combines with other booths for larger needs and adapts quickly with new parts for permanent changes.

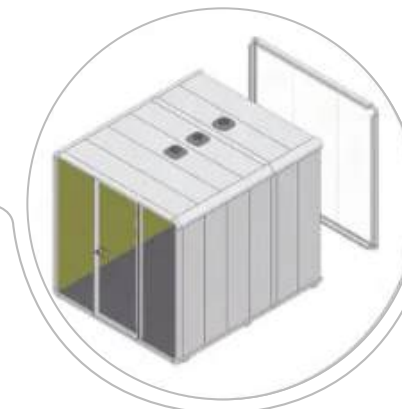

Remove the back frame and glass of the booth

01

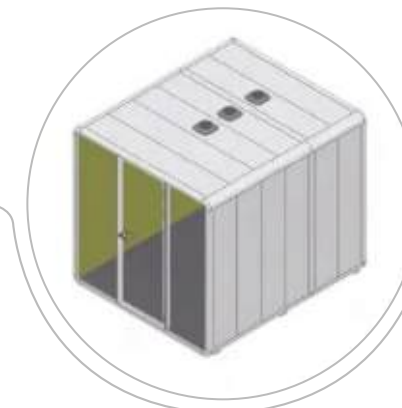

Connect the booth with the extensional parts by connect frame

02

Put the back frame and glass back.

03

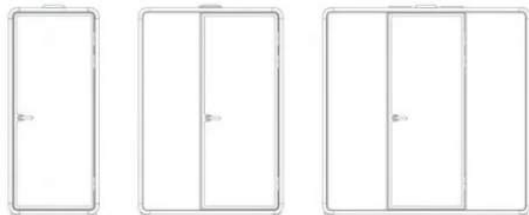

Finished
