

Your **brilliance**,
in full spectrum.

harvest LightBar NEW
Natural lighting system for dental technology

A **design** collaboration for dental technology.

BROADWING® x **Harvest**

For Harvest to bring lighting to dental technology, a collaboration with Netherlands based Broadwing®, a leading authority in the category of bench-top lighting was needed.

Incorporating the latest in LED technology, ergonomics and physiology, Harvest LightBar™ ensures that as a dental technician, you will be more comfortable, more focused and more equipped to manifest the brilliance that lives inside of you.

Smile...you're about to be **refreshed**.

See your Brilliance.

As a dental technician,
You might say brilliance is a grade.

You've just made the crown.
You hold it to the light.
The natural refraction is there.
The shade is spot on,
and the light you selected, is bouncing off the texture.

You spent a lot of time.
It was a long process.
So many variables.
And now you're finished.
The crown is finally done.

You see the brilliance in your hand;
It is the manifestation of something great.
A brilliance that lives inside of you;
The gift you have, to create.

We believe that brilliance is not something you make;
It is someone you are.

Harvest LightBar NEW

Your brilliance in full spectrum

Ergonomics to **alleviate** your discomfort.

Headaches? Vision fatigue? Tension? Discomfort?

While most attribute ergonomics to working posture, chair and desk height, the dynamics of light dispersion plays a major role in working comfort. The right lighting reduces fatigue and contributes to greater levels of accuracy and productivity.

Cover your bench with even light distribution

LightBar™ features a gigantic 31.5-inch wingspan, with flexible gooseneck designed to give you the power to harness lighting everywhere you need it, without shadow formation.

The true lighting your brilliance demands.

LED provided by **SAMSUNG**

To satisfy the high color matching demands of dental technology, the prestigious quality of SAMSUNG's premium high-performance LED was selected.

3 intelligent light programs with touch-point experience

With intuitive touch-point control, the power of light is at your fingertips. 3 dimmable Light settings incorporating human physiology and dental technology to meet your emotional and working needs with up to 9 lighting variations.

On / off button & timer adjustment
Select color temperature
Three-level brightness indicator

Cool, shade matching

Setting:

Daylight white (5000k)

Dental work:

True-to-nature color matching.

Physiology:

Increases attentiveness & hyper focus.

Bright, standard work

Setting:

Natural white (4000k)

Dental work:

Standard setting for everyday work.

Physiology:

Sustained energy and endurance.

Warm, veneering composites

Setting:

Warm white (3000k)

Dental work:

Longer light cure processing.

Physiology:

Relaxation along with a calming mood.

Harvest LightBar

NEW

The **value** of intelligence & design.

Advantages & Benefits

Award winning design

Samsung® premium LED (40,000 hours)

Touch activation

True shade control – CRI 96 with brightness control

Choose your light color

3 level brightness adjustment

Flexible gooseneck for angle adjustment

Indirect, anti-glare lighting

Reduces eye fatigue

True color illumination

Minimal heat emission

Available in crisp white

LightBar Dimensions

Bench Top & Bench Clamp included

Base (incl.) sizes: L 175 mm x B 230 mm x H 4 mm

Lamp (incl.) sizes: L 95 mm x B 100 mm x H 85 mm

Lamp W: 800 mm (Ultrawide) LED Replaceable

Lamp H: 500 mm – 600 mm (Flexible Gooseneck)

Price: \$329
