BLACK JACK

DESCRIPTION
BESTOLIFE® Black Jack uses zinc oxide, graphite, oxidation and H₂S inhibitors, and PTFE to combine effectiveness and economy. For new and worn drill pipe connections, Black Jack provides excellent seizing and galling protection, superior adherence, and effective washout resistance under the most severe conditions.

APPLICATIONS
PTFE compound for drill pipe.

TECHNICAL DATA
Black Jack is an effective yet economical tool joint compound that can be used in a wide range of drilling conditions. It combines the proven sealing performance and galling resistance of zinc oxide, graphite, and PTFE in a compound that also provides superior adherence and washout resistance even under the most severe conditions. Black Jack can be used on both new and worn connections. Contains oxidation and H₂S inhibitors.

NOTES
A safety data sheet is available from the manufacturer. Do not use on oxygen lines or in oxygen enriched atmospheres.
