

STINGER® WHITE WATER

5 Gallon Plastic Pail

PRODUCT CHARACTERISTICS

Color:	Off White
Penetration: (ASTM D217)	320-340
NLGI Grade:	1
Weight/Gallon:	9.7 pounds/gallon
Thickener:	Lithium
Fluid Type:	Petroleum
Dropping Point: (ASTM D2265)	≥350°F (≥177°C)
Flash Point:	≥325°F (≥162.8°C)
Brushable To:	-20°F (-29°C)
Service Rating:	500°F (260°C)
Shelf Life: (Unopened container)	4 years
Contains:	Nonmetallic additives and corrosion inhibitors

*NSF Certificate No. C0349565-01

A safety data sheet is available from the manufacturer. Do not use on oxygen lines or in oxygen enriched atmospheres.

DESCRIPTION

STINGER® White Water is an all-season, non-metallic compound for environmentally sensitive areas. Formulated from non-metallic additives and corrosion inhibitors, STINGER® White Water gives maximum protection against thread damage while enhancing sealing, makeup and breakout. It washes out of clothes, provides superior resistance to wash-off, and is easily brushable in a wide range of temperatures.

APPLICATIONS

All-season compound recommended for use on water well drill pipe. This non-metallic formula is developed for low environmental impact. STINGER® White Water is easily brushable down to -20°F.

TECHNICAL DATA

- ALL SEASON formula
- Environmentally friendly
- Premium thread protection
- Superior resistance against water wash-off
- Protects against rust and corrosion
- Will not stain clothing
- NSF ANSI 61 Certified*

PACKAGING

PRODUCT NUMBER	CONTAINER SIZE	CONTAINER WEIGHT
666008	1 gallon	8 pounds plastic
666025	3 ½ gallon	25 pounds plastic
666043	5 gallon	43 pounds plastic

Note: All package sizes are not listed. Call your sales representative for a complete listing.
