WHITE COLLAR

DESCRIPTION
BESTOLIFE® White Collar is a versatile, effective, and economical drill collar compound that combines zinc oxide and PTFE to enhance sealing and galling resistance for both new and worn connections. It resists extreme pressure and wear.

APPLICATIONS
Zinc/PTFE compound for drill collars.

TECHNICAL DATA
White Collar is an effective, yet economical drill collar compound that can be used in a wide range of drilling conditions. The combination of zinc oxide and a high percentage of PTFE provides both enhanced sealing and galling resistance in a compound that can be used on both new and worn connections. White Collar includes a high level of extreme pressure and anti-wear additives that will help to reduce collar wear and damage that results in expensive re-works. White Collar contains a high-quality lubricating base grease formulated with H₂S and oxidation inhibitors.
