sizes

This bralette is designed to fit with **NEGATIVE** ease. When comparing your size to the schematic (on page 4), you're looking for a size that is about 90-95% of your **ACTUAL** measurements. First, you will choose your band size. Then, choose your cup size.

band sizes

It's recommended you choose the size that measures closest to your **UPPER BUST** and **UNDERBUST** measurements.

	1	2	3	4	5	6	7	8	9	10	11
upper bust in	31	34.25	37.5	40.75	44	47.25	50.5	53.75	57	59.25	61.5
upper bust cm	78.5	87	95.5	103.5	112	120	128.5	136.5	145	150.5	156
underbust in	24.75	28.5	32.25	35.75	39.75	43.5	47	50.75	55	59.25	62.5
underbust cm	63	72.5	82	91	101	110.5	119.5	129	139.5	150.5	159

cup sizes

It's recommended you choose the size that measures closest to 90% of your **FULL BUST** measurement without going over your actual full bust measurement. Between sizes? More negative ease will have a more compressive fit which may feel more supportive, you may prefer less negative ease if you do not like the "squeezed" feeling of compression.
