sizes

When choosing a size, it's recommended you choose the size that measures closest to your **UPPER BUST** measurement. The chart below provides the ACTUAL upper bust measurement (from your body) and the GARMENT bust measurement. The intended ease at the full bust is 6".

Instructions for working a **FULL BUST ADJUSTMENT** (bust darts) are given at the end of this pattern. If you are not sure if you require this adjustment, please read page 16 for more information.
