SOFT WALK

Airy, wearable, and imminently knittable – this little tank is everything I want to shrug on in the summer.

Lighter and fresher than cotton, Breezeway is knit in silk bourette (also known as raw silk or silk noil). Silk bourette is made from short silk fibers that are naturally short, are from the broken cocoons from which silkworms emerge, or are leftover from continuous silk production. Unlike continuous silk yarns, bourette is soft, matte, and lofty with a gently nubby texture.

A “Classic” Pattern

Our Classic series of patterns are designed to help you grow your knitting and fitting skillset. These patterns include at least one modification in the pattern to help you make it your own, and enough support that they could be your first garment pattern. Soft Walk offers two modification options – a long and short version, and optional bust shaping in four cup sizes.

CONSTRUCTION

Soft Walk is knit in the round from the bottom up to the underarms and then knit flat to the shoulders. The shoulders are seamed and stitches are picked up and knit for the collar and armhole trim, which are finished with a sewn tubular bind-off (or other bind-off of your choice).

TECHNIQUES USED

- Tubular cast-on (optional) (page 7)
- Working in the round
- Working directional shaping
- Working German Short Rows (page 6)
- Working a Sloped Bind-off (optional) (page 6)
- Seaming (for the shoulders only)
- Picking up and knitting
- Working a Sewn Tubular Bind-off (optional) (page 6)

SIZE INFORMATION

GAUGE

22 stitches and 33 rows/rounds over 4 inches / 10 cm in stockinette stitch with size A needles after blocking.

SIZES

1 (2, 3, 4) [5, 6, 7] (8, 9, 10, 11)

CHOOSE A GARMENT SIZE

Choose the size closest to your actual upper chest measurement.

Upper chest is measured above the full bust, at an angle close to diagonal beneath the underarms, and straight across the back.

Pick a Garment Size											
	1	2	3	4	5	6	7	8	9	10	11
Body upper chest - inches	27.75	31.75	35.75	39.25	42.25	44.5	47.5	50.5	53.5	56.5	59.25
Body upper chest - cm	70.5	80.5	91	99.5	107.5	113	120.5	128.5	136	143.5	150.5

Pick a Cup Size		
Your result:	Cup	Adds to the front
< than 1.25 inch / 3 cm	None	N/A
1.25 - 2.5 inches / 3 - 6 cm	1	1.25 inches / 3 cm
2.5 - 3.75 inches / 6 - 9 cm	2	2.5 inches / 6 cm
3.75 - 4.75 inches / 9 - 12 cm	3	3.75 inches / 9 cm
> 4.75 inches / 12 cm	4	4.75 inches / 12 cm

PICK A CUP SIZE

Soft Walk includes instructions for working short rows to accommodate breasts. Short rows add length to the front of the garment only, so that the hem does not rise in the front. To choose a cup size, measure your body from the top of the shoulder to your underbust in both the back and the front. Subtract the back length from the front length then subtract 2 inches / 5 cm and choose a cup size based on the result.

Jen is wearing size 5, cup 2, Short Length with 4 inches / 10 cm of positive ease at the full bust. Her upper chest is 41 inches / 104 cm and she is 5'8" / 172.5 cm tall.

INTENDED FIT

Soft Walk is designed to fit with approximately 4 inches / 10 cm of positive ease at the fullest part of your bust.

The finished total length of the garment is measurement L (page 4). To see where the hem will land on your frame, measure straight down from your inner neck point (where your shoulder meets your neck, halfway between the front and back). Short Length is designed to land at the high hip, Long Length at the full hip.
