THE ROLLING  
AND THE STONED

# THE ROLLING AND THE STONED, WE'RE A LUXURY CERAMIC BRAND WITH A NAUGHTY SIDE

The Rolling And The Stoned launched back in October 23'. Inspired by the subversive culture of the 70's and 80's; The Rolling and The Stoned evokes all things sexy, luxury & jet-set. Feel the nostalgia as our collections remind you of your wildest nights with the people you'll never forget. Everything you see is designed & handmade in the United Kingdom. Once our designs have been thrown on a potter's wheel, the fun really begins. Each piece tells a story from the morning after the night before, adorned with eclectic mementoes such as stubbed-out cigs, burnt matches, lipstick stains and cigarette ash and beer bottle caps. All of our works are hand-finished with sexy 24 karat gold; making each piece truly unforgettable. We hope you enjoy taking every last sip, just as much as we've loved creating.

*A small espresso in one hand and a cigarette in the other, I always feel untouchable. Give me a pair of dark shades, then that's perfection.*

-Christian Andrew

*Sipping a double espresso can be such a thing of theatre & statement of many people's lives. However, there's never been a cup & saucer to live up to the expectation, that's until now. This is the exact reason The Rolling And The Stoned was born, to express everything from the luxury, the excess the naughtiness all expressed in 'the morning after the night before' where even the pottery looks like it's been to the party!*

*Each piece features mementos from wild nights, many inspired by my own experiences. It's fair to say I've had a few nights that I'll never forget, I love creating wares inspired by my memories, they act as a welcomed jog to the memory.*

*All of our products are embellished with eclectic touch such as stubbed out cigarettes, the ash to accompany, branded lighters, lots of kisses & lipstick marks as well as 24 karat beer caps to name just a few.*

*Each piece is designed and hand-thrown in England where the brand is based and inspired by the famous muses of past generations. Each collection is fired three times and hand-finished with a 24 karat gold and platinum lustre, which of course adds a sexy final flourish.*
