

PWR Solar 10W

10W - COMPACT FOLDING SOLAR CHARGER 5V
USD \$99.95

SNAP MAGNET CLOSURE:

Smartly placed magnets allow for easy closure and storage of the Solar unit when not in use. These same magnets are also helpful when positioning the solar panel on a metal object.

DUAL FUNCTION LED'S:

4 conveniently located LED's with dual display function:
LED's (On steady) - Measures the quality/strength of the available sunlight, allowing for optimum sunlight placement capture
LED's (Flashing) - Displays the rate at which your device is charging (& will only deliver the required level of charge that a device needs).

POWER JUNCTION:

Access your solar generated power using a standard USB connection. When not in use simply seal shut using the soft touch rubber access flap and your solar unit will be water resistant to a rating of IP65.

PREMIUM SOLAR CELLS:

Utilising Sunpower Maxeon GEN 5 solar panels which feature Monocrystalline cells to allow for high module efficiency these are the same panels that NASA use.

INTELLIGENT CHIP TECHNOLOGY:

Advanced integrated chip technology allows the Knog solar panels to detect improving solar conditions, and automatically re-starts the charging process to allow the device to draw the optimal charging current in each circumstance.

CHARGING:

Suitable for:
Phones, Smart Watches, Tablets, GoPro's & PWR banks

STURDY D RING:

Handy D-Ring attachment allowing for convenient storage or premium placement for maximum sun absorption.

ETFE COATING:

Our Solar unit is coated using ETFE which is considered the leading industrial coating offering unparalleled protection from; heat, water, salt, oil, dirt and anything else the great outdoors can throw at you.

PRODUCT DIMENSIONS:

Folded: 175mm (L) x 105mm (W) x 35mm (D)
Deployed: 540mm (L) x 175mm (W) x 17mm (D)
Weight: 450 grams

SINGLE USB
OUTPUT -
4 PANEL
SOLAR ARRAY

COMPETITORS

BIOLITE SOLARPANEL 10+
\$139.95

1. Standard Monocrystalline panels- not as efficient
2. Bulky system
3. Not as durable for all conditions

GOALZERO NOMAD 10
\$99.95

1. Bulky system
2. No gauge for maximising sunlight or charging level
3. Panels are not as efficient as Sunpower
