

Scout

Bike Alarm & Bike Finder

USD \$59.95 / €59.95 / £54.95 / AUD \$94.95

Scout is both a super loud bike alarm and a highly accurate bike finder which allows the user to trace the location of their bike using their Apple device and Apple's 'Find my' app technology.

LONG BATTERY LIFE:

Enjoying up to 6 months of battery life between charges, a user will only have to charge their device twice a year.

SUPER LIGHTWEIGHT:

25 grams, that's the equivalent weight of a single AA battery.

IN SITU USB C RECHARGEABLE:

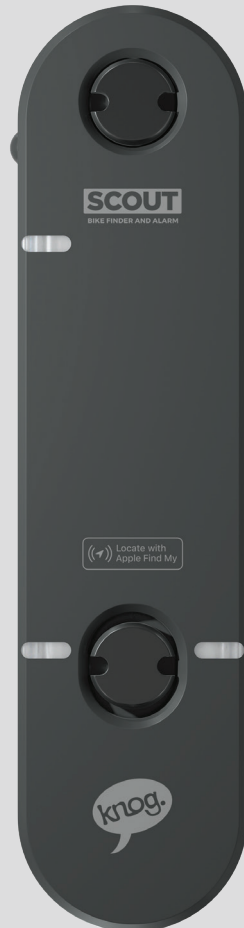

When charging Scout, there is no need to remove the unit from the bike; simply recharge via a USB C cable.

WATER RESISTANT:

With a water resistant rating of IP65, the Scout can be left in the rain, ridden in the rain, or get wet when washing your bike without affecting the functionality.

INTELLIGENT LED'S:

Multi-functional LED's allow the user to clearly see if their Scout is alarmed, paired and the status of the battery.

LOUD PIEZO ALARM:

The alarm is impossible to ignore at 85 Decibels, which is louder than a truck, but not quite as loud as a helicopter.

SECURE MOUNTING:

Scout attaches to your bike via the bottle cage mounts using tamper-proof security screws.

OVERT OR DISCREET PROTECTION:

With 2 Scout colour options to pick from, the rider can decide how overt they wish to make their Scout; the functionality remains the same.

For discreet protection, choose Black stealth.

For overt protection, choose Neon Yellow.
