

**Tools Required:** Phillips Head Screwdriver  
or  
Drill with Phillips Head Bit

**ASSEMBLY INSTRUCTIONS**

ASSEMBLE WINE RACK IN HORIZONTAL POSITION.

1. Install top and bottom shelf (A) by using the upright (C) and hardware (B) provided. **NOTE:** See Detail "A" for the correct way to install shelf. Do not tighten hardware (B) until the wine rack is in the vertical position.
2. Install remaining shelves (A) with hardware (B) and install the upright (C) across. (opposite)
3. Install end caps (D) "if applicable" on the bottom of uprights (C). **NOTE:** If no clearance under the bottom shelf is required an additional shelf can be added by using bottom hole in uprights. **Additional shelf must be purchased.**
4. Rotate wine rack 180 degrees and install the remaining two uprights (C) to the shelves.
5. Install end caps (D) "if applicable" on the bottom of uprights (C).
6. Lift the wine rack in the vertical position and tighten all hardware (B) using a Phillips Head Screwdriver.
