

Masked Buzzer

The Masked Buzzer™ is a “Woolly Buzzer” style pattern that incorporates the Fish-Skull® Fish-Mask to provide a realistic head and eyes, without adding significant weight to the fly.

MATERIALS:

	FLY VARIATIONS	#1	#2	#3
	NAME	FS MASKED BUGGER	FS MASKED BUGGER	FS MASKED BUGGER

6	Hackle	Standard Woolly Buzzer	Standard Woolly Buzzer	Standard Woolly Buzzer
7	Thread Dam color	Same as fly color	Same as fly color	Same as fly color

TYING INSTRUCTIONS

The Masked Bugger is essentially a standard Woolly Bugger that is tied with a Fish-Mask™ and flashabou along the sides to imitate lateral lines.

Tie a standard Woolly Bugger with the following changes:

- Use 3 or 4 strands of flashabou along the sides
- Leave a gap between the thread and the eye of the hook to make room to fit the Fish-Mask™.

- Apply super glue to your thread wraps on all sides (360°)

- Fit the Fish-Mask™ onto the fly from the front.

- Position the Fish-Mask™ firmly against the materials as shown.
- Make sure that the Fish-Mask is positioned straight and even.

- Top view.

- Re-attach your tying thread between the Fish-Mask™ and the eye of the hook.
- Do 8-12 thread wraps to create a “thread dam”. Tie off your thread and add head cement.
- This thread dam will lock the Fish-Mask™ firmly in place.

- The next step is to add the Living Eyes to the Fish-Mask™.

- Add a small drop of super glue in the center of the eye socket.
- Place the Living Eye into the eye socket.

- The Masked Buzzer is now complete.
- Now go catch a big fish!
