### APRICOT // ALMOND // ROUND

Yaritza Guadalupe Sevilla Montenegro brings 45 years of coffee farming experience to El Jardin. She grew up surrounded by family and tradition in the department of Nueva Segovia and learned farming practices from an early age. For the past 25 years she has managed the farm with the help of her husband, Luis Alonso Castellanos and their four children. The family works together to manage their 14 hectare farm, 10 hectares of which is dedicated to growing coffee.

Since switching to producing specialty coffee, with the motivation to increase the family's income as well as improve financial stability by moving away from the volatile commodity market, the quality of her coffee has soared. The main goal is to continue to invest in the farm and make improvements to processing, drying and general farming practices.
