Professional Design Software

Our full catalog is available on ProKitchen Professional Design Software. Ask your rep for Johnson's Cabinets.

The number one RTA cabinet in the industry. Proudly made in Elkhart, Indiana.

Johnson's **CABINETS**

“Spec Book”

We offer top-quality ready-to-assemble cabinets with excellent customer service.

Our cabinets use an easy RTA assembly method, using tools you already own.

Each box is carefully packed with high-quality materials, including a full-color picture, barcode, and QR code.

Our cabinets are proudly made in the USA with 1/2" box construction, hardwood doors, and face frames.

They feature high-grade soft-close hinges and full-extension drawer slides for durability and functionality.

Plywood box cabinets have undermount soft-close drawer guides, while particle board box cabinets have side-mount guides.

Choose from Maple, Hickory, or Cherry wood species in various finishes including White, Grey, Navy, Provincial, and Espresso.

Unfinished options are also available for all three wood species for personalized preferences.

Johnson's CABINETS

“Standard Wall Cabinets”

Description and use of the part number system used by Johnsons Cabinets:

The letters indicate the type of cabinet (W = wall cabinet - B = base cabinet etc.)

The first number indicates the width (W930 = 9” wide cabinet)

The second number indicates the height (W930 = 30” high cabinet)

Wall 12” Deep Single Door Cabinets

W930	W936	W942
W1230	W1236	W1242
W1530	W1536	W1542
W1830	W1836	W1842
W2130	W2136	W2142
W2430	W2436	W2442

On double door cabinets you have the option of ordering with or without a center style on some cabinets. BUTT means there is no center style to divide the cabinet.

VB2134.21.3D
VB2434.21.3D

We offer our standard vanities in 2 heights (31 1/2" & 34 1/2") and 2 depths (18" & 21") The part number indicates width, height and depth. We also offer these with a full back or an open back. The open back (NB) cabinets have a 4 1/2" stringer across the top in the back so that you can still fasten the countertop and fasten to the wall. This option saves you from cutting out the back for plumbing that is coming through the wall.
