

Energise (s) – Wall Mounted Shower Changer

The Energise is a UK designed and manufactured wall mounted shower changer.

Providing an easy to use, easy to install solution for any private home or changing facilities.

An innovative, durable design allows the bed to fold away with a press of a button.

Warranty

At Kingkraft we offer a 2 Year Guarantee as standard due to our confidence in our quality and durability

Easy To Clean

Hygiene is a priority, so this product uses an easy clean fibre glass bed

Space Saving

The Energise(S) Changing Tables are a wall mounted changing solution and can be 'stored away' in a vertical position to save space when not in use. Our powered technology means you won't need to do any heavy lifting.

Cushioned for Maximum Comfort

A fully custom fitted cushion pack and headrest ensures a comfortable & safe changing experience

Adjustable Side Rails

The Energise(S) Changing Tables include adjustable side rails, providing a more secure and comfortable Changing experience. Side rails help to promote safe transfer on and off the Changer for a wide range of users.

Quality & Durability

Kingkraft's UK designed and manufactured Changing Tables are assembled with high quality and resilient components. Design has been expertly engineered to be solid and robust. The Energise(S) Changing Tables offer a highly durable, versatile, and hygienic Changing and showering solution.

Modern Design

Both models have been designed and styled to look smart and discrete, not something you may expect from a typical changing table. Stylish and contemporary appearance, both changers would complement any modern setting, including a private home bathroom

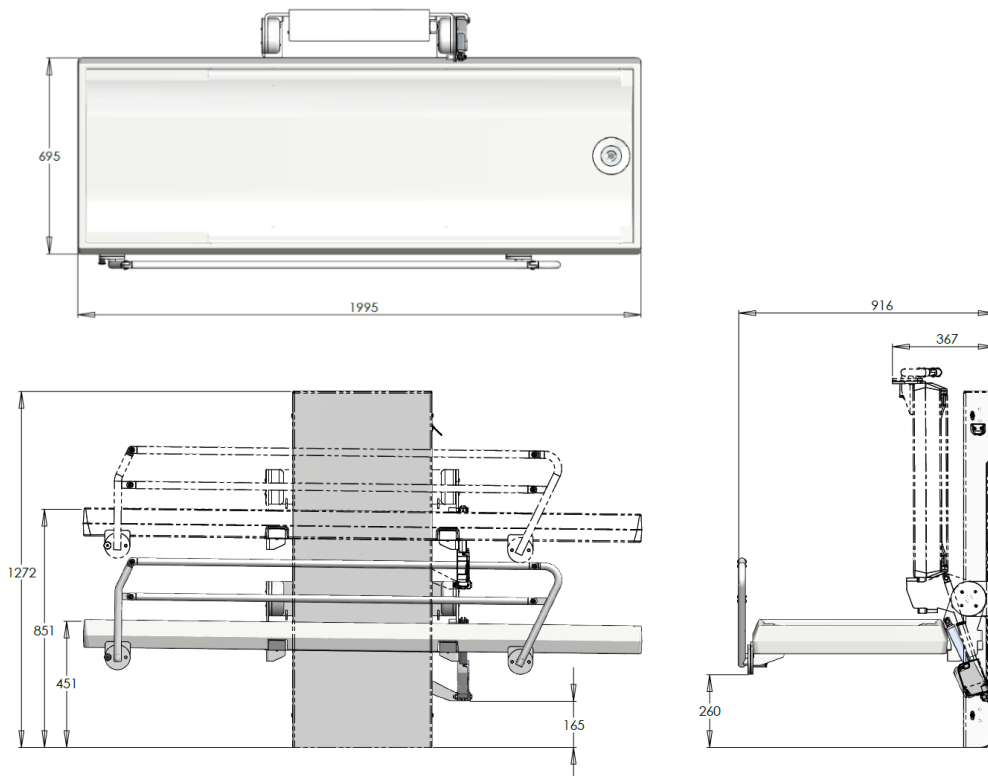

Height Adjustable

Our technology allows smooth height adjustment ensuring the height is perfectly adjusted to allow easy access and hoist compatibility
