

WL-WTS

**Kit contains one adapter, two lock nuts and seven different template guides in a plastic case**

**Our Template Guide Kit includes:**

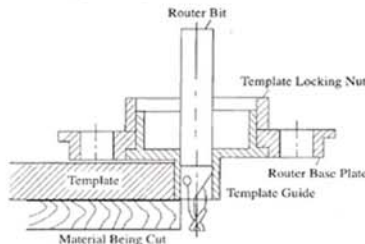

**Purposes:**

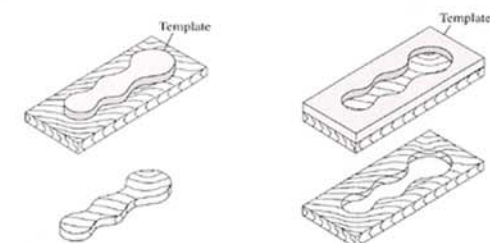

Our Template Guide Kit will work with any template, pattern or jig for perfect duplicate routing of edges or interior surfaces.

Use for:

1. Stair routing
2. Pattern routing
3. General routing
4. Hinge routing
5. Dovetailing
6. Craft/Hobby work

**Edge Routing Using Template Guides**

**Sample of Edge Routing**

**Sample of Inset Routing**

**How to use:**

1. Install the Template Guide into the center hole of the router sub-base from underneath, threads up.
2. Secure the Template Guide by screwing the locking ring onto the threads protruding through the sub-base.

Our Template Guides are suitable for the following Brands and Models:

- |              |                          |
