

Are Our Candles Cost Effective?

A typical graveside candle shell cost approximately \$85+ and that does not include any candles. Most basic 7 day candle cost \$7+.

\$85+ + \$7 = ~\$449 for the first year

Plus Candles

If you light a new candle for all 52 weeks out of the year you are spending \$364 on just candles alone. And this requires you to go to the graveside every week and light a new candle. Your total cost in just the first year is \$449 and each year you use your candle you can spend an additional \$364.

If you purchase a Legacy candle your initial cost is for the complete package is \$189. Every 6 months you need to purchase 10 batteries, each battery cost approximately \$1.75 which is approximately \$35 a year. Your total cost the first year is \$224 and each year you use our candles you are only spending approximately an additional \$35 which is a lot less than the traditional candle which can cost \$312. Our Tribute candle package cost even less and so your initial cost would be even less expensive.

\$189 + \$1.75 = ~\$225 for the first year

Plus Batteries

In summary a typical graveside candle can cost you over \$400 the first year and more than \$350 each year after. If you purchase a Legacy or Tribute candle your first year cost is about \$225 and only about \$35 each year after.
