

## Zippy Strip Adapter

1. Zip each side of the adapter into your coat zipper.
2. Unzip the centre zipper of the adapter (coil zipper with "Bridge the Bump" pull tag).
3. Orient your Stay Warm Insert for pregnancy or babywearing.
4. Zip Stay Warm Insert into Zippy Strip Adapter as per Pregnancy or Babywearing instructions.

"SIDE A" zipper is plastic, metal, coil, or reverse coil to match your coat zipper.

"SIDE B" zipper is a coil zipper that attaches to the Stay Warm Insert

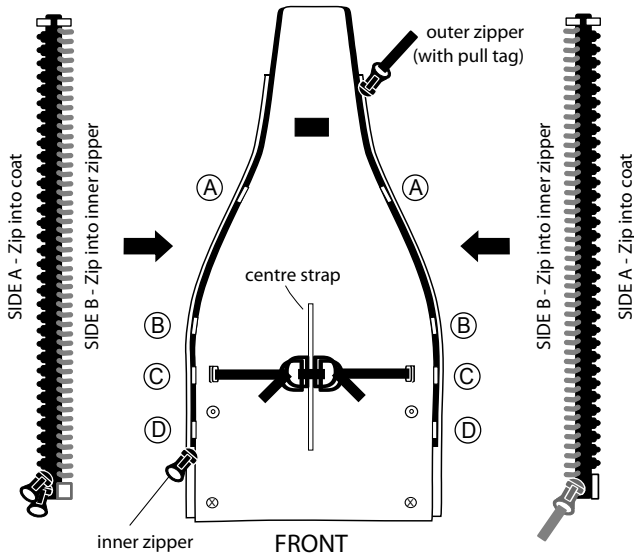

## D-Ring Belt

The D-ring belt allows you to adjust the snugness of the Stay Warm Insert around your growing belly or growing baby. It can be attached to the Insert in any of four positions (A, B, C, D) by hooking the ends of the belt into the elastic loops.

In position B, C, and D slide the belt under the centre strap before attaching the ends of the belt to the elastic loops.

## For Pregnancy

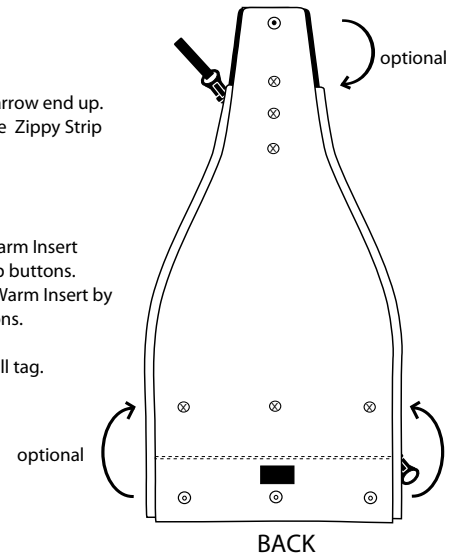

1. Orient your Stay Warm Insert with the narrow end up.
2. Zip INNER zipper of the Insert into the Zippy Strip Adapter SIDE B.
3. Adjust the D-Ring belt as necessary.

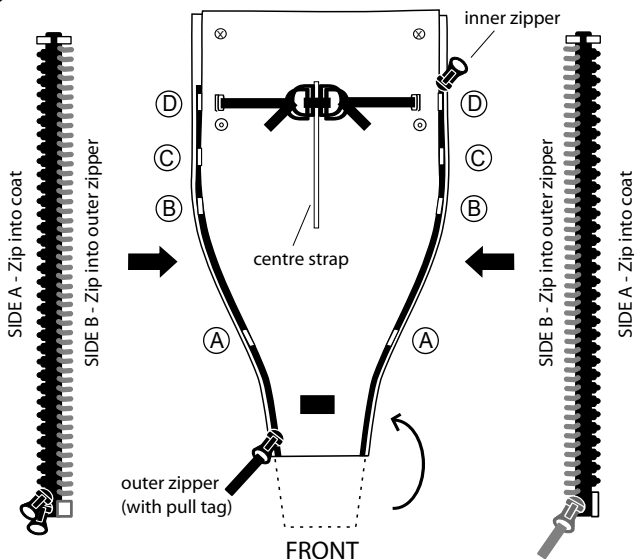

### OPTIONAL:

4. Shorten the top (narrow) end of Stay Warm Insert by folding down and securing with snap buttons.
5. Shorten the bottom (wide) end of Stay Warm Insert by folding up and securing with snap buttons.

Note: The INNER zipper does not have a pull tag.

## For Babywearing

1. Orient your Stay Warm Insert with the wide end up.
2. Fold up the bottom (narrow) end of insert to highest button and snap in place. *Note: this step is not required for extra-long coat extensions.*
3. Zip OUTER zipper of the Stay Warm Insert into the Zippy Strip Adapter SIDE B.
4. Adjust the D-Ring belt as necessary around baby.

Note: The OUTER zipper has a "Stay Warm" pull tag.

*Warning: The coat extension is designed to be worn over a baby in a dedicated carrier. It cannot be used to carry a baby.*
