

TACIII+™ TACTICAL BLANKET SYSTEM

The TACIII+™ Tactical Blanket System. Rated NIJ Threat Level III (rifle), the TACIII+ was created to meet the need for a quickly deployable, modular system to defeat high powered rifle fire. Just as with the 1st Responder, the TACIII+ can be deployed on vehicles, on walls, over windows, doorways, railings, etc. The TACIII+ uses our exclusive "Gladiator Grip" for positive control of the panel with one arm.

TACIII+

TACTICAL BLANKET SYSTEMS

General Specifications:

- * Deployed Size: 90" x 48"
- * Stored (in case) Size: 11" x 53" x 27"
