We believe that medical cannabis should be consistent, affordable, and of the highest quality.

At Spectrum Therapeutics, our mission is to improve quality of life for everyone, including those who are affected by acute and chronic illness, through a wide selection of medical cannabis.

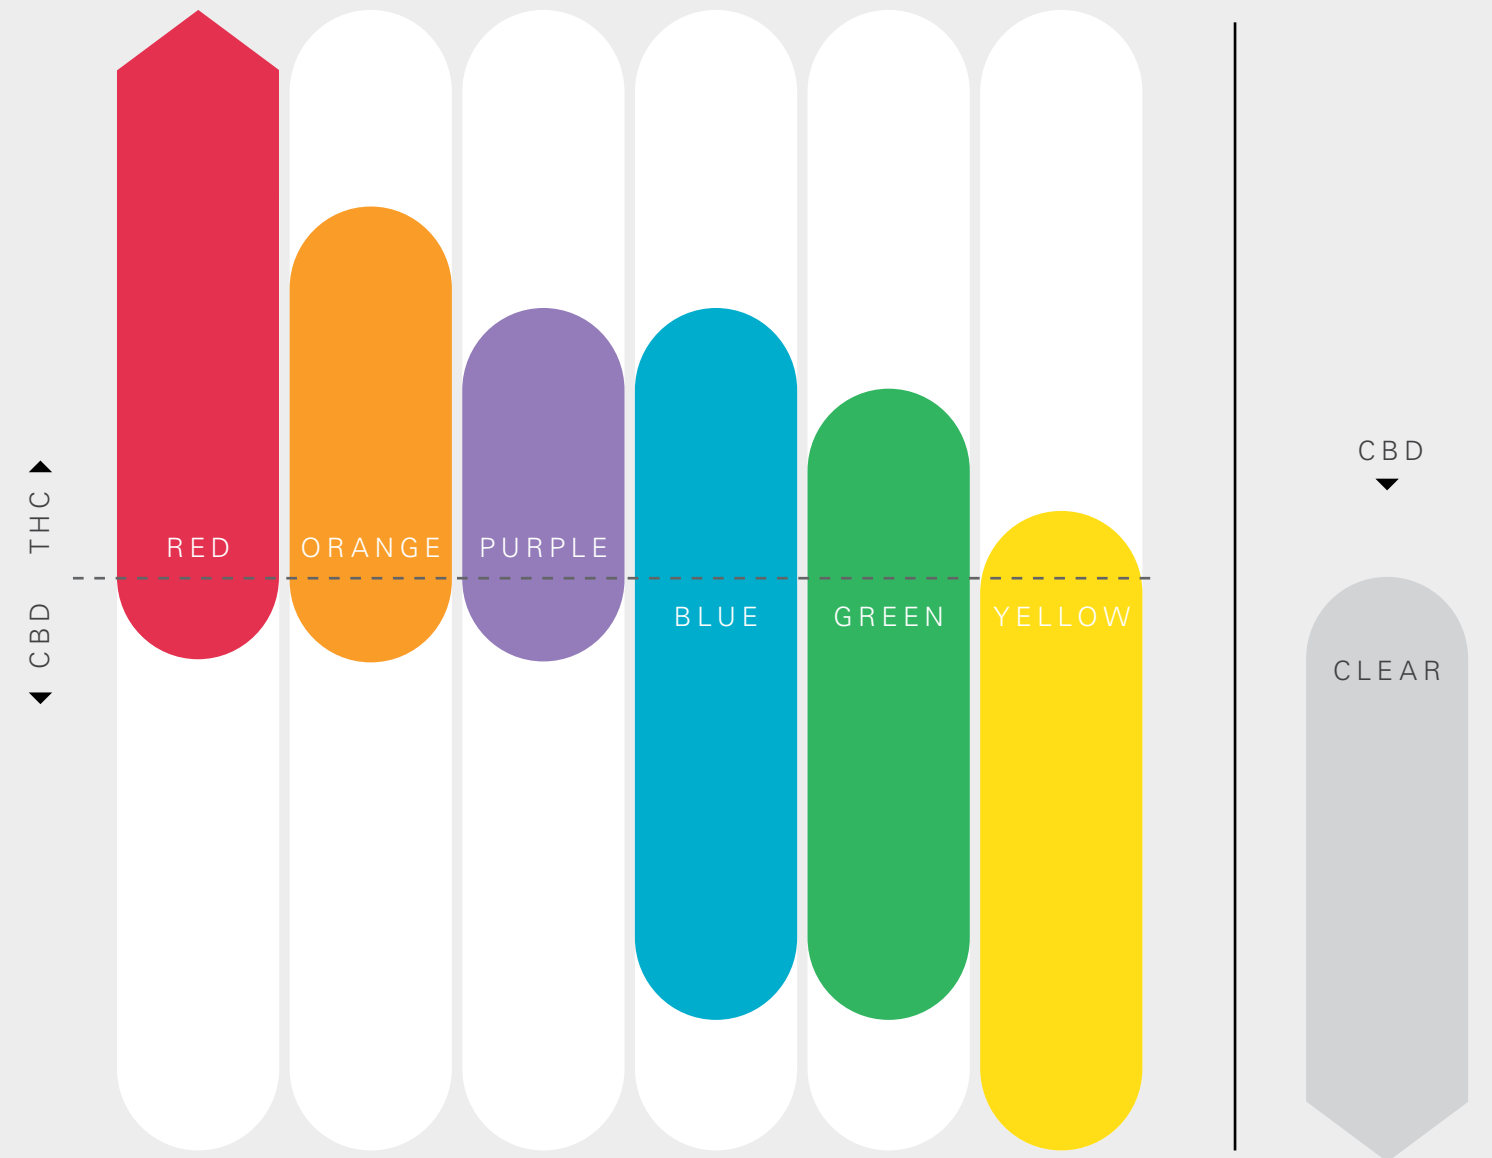

Plus, we're trying to make things easy—each colour in the framework represents a product category based on THC and CBD content. Depending on your needs, you may use a product containing THC, CBD, or a mixture of both.

- Red products are THC-dominant with low levels of CBD
- Blue products have a more balanced ratio of THC and CBD
- Yellow products are CBD-dominant with low levels of THC
