Overview of SIG8 Simulator Flooring

Assembly Instructions Of SIG8 Flooring

Step 1: Assemble the Rows of Panels

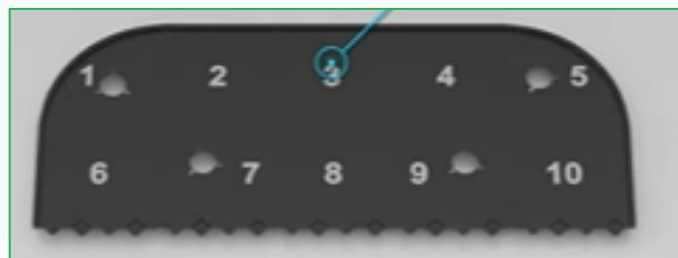

1. First, separate the panels and lay everything out by likeness.

2. Start assembling 1st row, numbered 1-5 with the back row that goes against the wall.

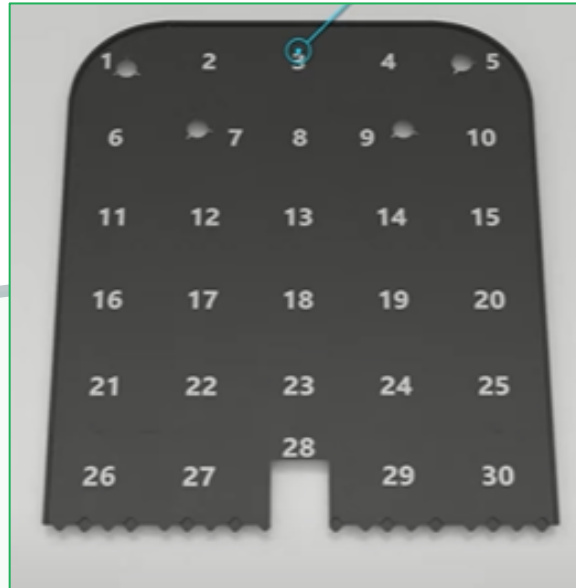

3. Now assemble the 2nd row of panels numbered 6-10 and connect them to row 1.

SIG8 Flooring (Assembly Instructions and User Manual)

4. Continue the process of connecting the rows until row 6 labeled 26-30.

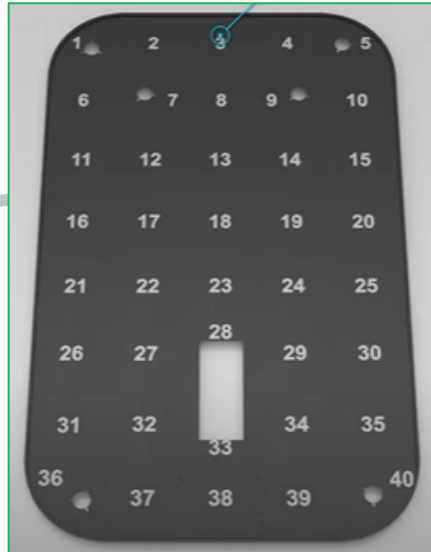

5. Assemble rows 6 and 7 and attach them in the same manner as the rest.

SIG8 Flooring (Assembly Instructions and User Manual)

6. Finally, put together row 8 and attach it to the rest of the simulator flooring.

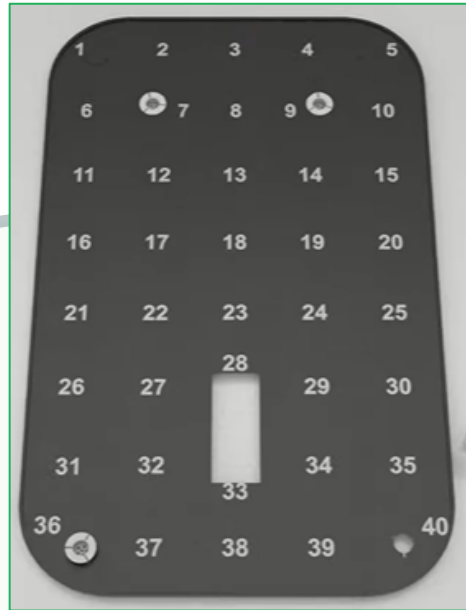

Step 2: Insert the cap and Cups

- Insert the caps provided to cover the holes on the corner pieces.

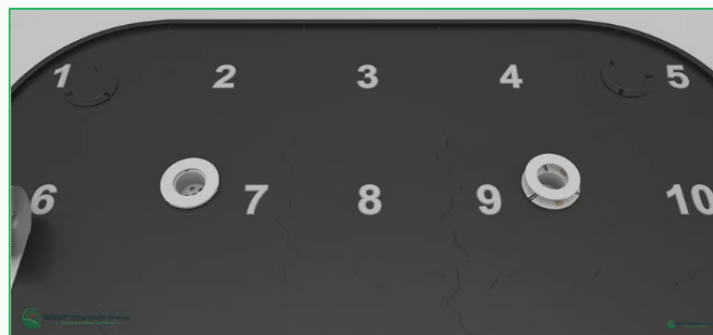

SIG8 Flooring (Assembly Instructions and User Manual)

- Take 4 cups and insert them to their designed locations, in panels 7, 9, 36, and 40.

Step 3: Place Tape On The Rings Of The Cups

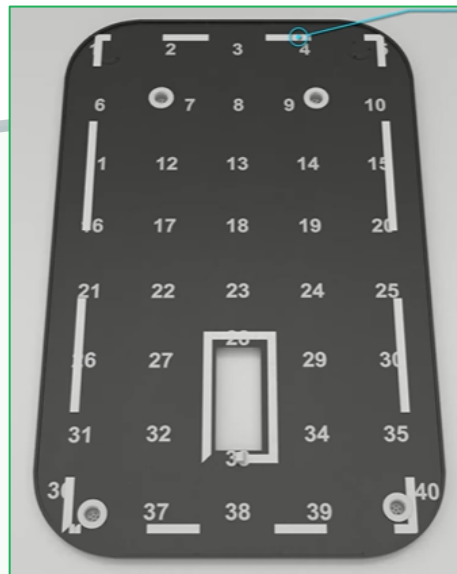

Give the cups a slight twist to lock them into place, then use the white circle and place that around the cups.

SIG8 Flooring (Assembly Instructions and User Manual)

Step 4: Place Tape Around the Border and Hitting Strip

Use the double-sided carpet tape around the mat, the cups, the corners, and anywhere for some extra support.

Step 5: Place the Turf Down

Lay out the carpet matching the putting cups with the designed cutouts for them.

SIG8 Flooring (Assembly Instructions and User Manual)

Step 6: Insert Hitting Strip

Lay the hitting strip into its designated location.

Note: This may be a snug fit.

Step 7: Place SIG8 Enclosure on The Top of The Flooring

Put the SIG8 Enclosure to the back of the frame against the corner piece of the simulator flooring and enjoy a new indoor golf experience.

SIG8 Simulator Flooring Care And Use

- The golf turf should be pressure washed once per year to remove any sand or dirt that has accumulated in the nylon fibers.
- Never apply any cleaning or shining agents to the turf.
- Make sure to clean the panels with a soft, damp cloth.
- To keep the green looking new for years never crease the turf.
- If the turf will not be in use for an extended period, roll it loosely with the green side out and store it and accessory pieces indoors.
- Vacuum it weekly or after each use to remove a buildup of dust on it.
- Do not use a beater brush on the turf, it can cause damage.
- Make sure to place the SIG8 simulator flooring set up in a room or space that is larger than the minimum space.

We Welcome Your Feedback!

Please feel free to contact us if you have any questions or comments about using your new products. We can be reached on our website, via email, or by giving us a call. Please don't hesitate to let us know if there is anything we can do to make your purchase a great value!
