

Denmark, Mid November 2022

UPDATED INFORMATION REGARDING UKCA LEGISLATION.

Maileg ApS
Trehuse 14
7400 Herning
Denmark

New updated on 14. November 2022

The UK government will continue to recognise the CE marking for two years, therefore allowing businesses until 31 December 2024 to prepare for the UKCA marking. Businesses can also use the UKCA marking, giving them flexibility to choose which marking to apply.

Maileg is closely following any updates from UK Government regarding UKCA marking.
As all Maileg items are CE marked, we have decided to cancel the optional UKCA sticker accordingly.

All other actions remain.

UK Authorized Representative:

Maileg has contracted with UK authorized representative from 1st of July 2022.

Our UK Authorized representative: Ice Compliance; Antony Kirrane, is fully representing Maileg in the UK and keeping Maileg Aps, Denmark, as the manufacturer/producer, placing goods on the UK market.

We have added the UK Authorized Representative to sales invoice and website for Authority issues only.

We are adding the UK AR name and address and UKCA logo to products in steps.

Transition period steps will updated autumn 2024, if any further information/markings is needed.
