

# SECTION 1: Identification of the substance/mixture and of the company / undertaking

1. Product identifier Trade name: Perma Cleanze Maintenance Spray 1.2 Relevant identified uses of the substance or mixture and uses advised against Application of the substance / the mixture: Biocidal product for the treatment of exterior hard surfaces 1.3 Details of the supplier of the safety data sheet Address and telephone number of the supplier: Benz Softwash Ltd Trabolgan Road Whitegate Midleton Cork, Ireland Phone: (IRE) +353 (0) 21 46 22 978 Email: support@benzsoftwash.com Competent person responsible for the Material Safety Data Sheet: Technical director: support@benzsoftwash.com **1.4 Emergency telephone number:** National Poisons Information Service UK: Phone +44 (0) 844-892-0111

Poisons Information Service or Ireland: Phone 01 809 2166

# **SECTION 2: Hazards Identification**

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

GHS05

Skin irrit. 2H315 Causes skin irritationEye Dam. 1H318 Causes serious eye damage.

GHS09 environment

Aquatic Acute 1H400 Very toxic to aquatic life.Aquatic Chronic 3H412 Harmful to aquatic life with long lasting effects

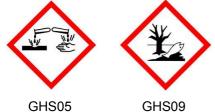

Revision : 7.02.2018

# 2.2 Label elements

# Labelling according to Regulation (EC) No 1272/2008

The product is labelled according to the CLP regulation.

### Hazard pictograms

Signal word: Danger

Hazard-determining components of labelling: Didecyldimethylammonium chloride

### Hazard statements:

H318 Causes serious eye damage

H315 Causes skin irritation.

H412 Harmful to aquatic life with long lasting effects.

H400 Very Toxic to aquatic life.

EUH401 To avoid risks to human health and the environment, comply with the instructions for use

### **Precautionary statements:**

P264 Wash hands thoroughly after handling

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P302+P352 IF ON SKIN (or hair): Wash with plenty of water

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P332+P313 If skin irritation occurs: Get medical advice/attention.

P501 Dispose of contents in accordance with local, state or national legislation.

P310 Immediately call a POISON CENTER/doctor.

2.3 Other hazards: Other hazards have not been identified for this product.

Revision : 7.02.2018

# **SECTION 3: Composition/information on ingredients**

#### 3.1 Mixtures

**Description:** Microbiozide based on twin chain quaternary ammonium compound.

Dangerous components:		
CAS: 7173-51-5	Didecyldimethylammonium chloride	1 - 5%
EINECS: 230-525-2	Skin Corr. 1B, H314; Eye Dam. 1, H318;	
Index number: 612-131-00-6	Aquatic	
	Acute 1, H400 (M=10); Aquatic Chronic 2, H411;	
	1 Acute Tox. 4, H302	
CAS: 67-63-0	propan-2-ol	1 - 2%
EINECS: 200-661-7	Flam. Liq. 2, H2253,	
Index number: 603-117-00-0		
Reg.nr.: 01-2119457558-25		

# **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

**General information:** Obtain special instructions from the poison information centre: Phone: +44 (0) 844-892-0111 (UK) or 00353 (01) 8092166 (Ireland) see as well section 1.4.

### Information for the First Aider:

**After inhalation:** Supply fresh air; consult doctor in case of symptoms. If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

After skin contact: IF ON SKIN (or hair): Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention.

After eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a doctor immediately.

**After swallowing:** IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF SWALLOWED: Immediately call a POISON CENTER/ doctor.

4.2 Most important symptoms and effects, both acute and delayed: Causes burns.

**Information for doctor:** Probable mucosal damage may contraindicate the use of gastric lavage. Danger of gastric perforation.

**4.3 Indication of any immediate medical attention and special treatment needed:** If swallowed, gastric irrigation with activated carbon. Rinse eyes thoroughly with physiological saline.

# **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Suitable extinguishing agents: Water spray jet, extinguishing powder, CO2, foam.

Unsuitable extinguishing agents for reasons of safety: None

**5.2 Special hazards arising from the substance or mixture:** In case of fire, toxic incineration products may be released such as:

Safety Data Sheet according to 1907/2006/EC, Article 31

Trade name: Perma Cleanze Maintenance Spray

Revision : 7.02.2018

Hydrogen chloride (HCl) Carbon monoxide (CO)

# 5.3 Advice for firefighters

Protective equipment: Wear self-contained breathing apparatus.

Additional information: Collect contaminated fire fighting water separately. It must not enter drains.

# **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Particular danger of slipping on leaked/spilled product.

Wear protective clothing (see item 8).

Keep unprotected persons away.

**6.2 Environmental precautions:** As the product is hazardous for the aquatic environment, it must be prevented from reaching surface water. Prevent from spreading (e. g. by enclosing with a ring of chemical absorbent). Inform authorities in case of contamination of water or sewage system.

**6.3 Methods and material for containment and cleaning up:** Collect large amounts in suitable container. Cover the rest with absorbent, mix intensively and collect mechanically. Suitable binder: multi-purpose absorbent. Dispose of contaminated material as waste according to item 13. Decontamination procedure: Quats are incompatible with anionic compounds, e. g. with anionic surfactants. If product is released unintentionally into waste water, drain the contaminated waste water and collect it in an appropriate container. Adjust with sodium lauryl sulphate solution (concentration twice as high as the active ingredient in the wastewater) to a mixture ratio of 1:1. Request further instructions from the supplier. Polluted surfaces can be decontaminated with a 10% sodium lauryl sulphate solution. **6.4 Reference to other sections:** None.

# SECTION 7: Handling and storage

**7.1 Precautions for safe handling:** Wash hands thoroughly after handling. Wear protective clothing/eye protection and face protection.

# 7.2 Conditions for safe storage, including any incompatibilities

Storage: Store at around 20 degrees.

**Requirements to be met by storerooms and containers:** Store only in the original container. nformation about suitable materials for vessels and piping can be requested from our technical department department Tel.: +353(021) 46 22 978 or email support@benzsoftwash.com

Information about storage in a common storage facility: Store away from foodstuffs.

**Further information about storage conditions:** Store in a well-ventilated place. Keep cool. If the product crystallizes at low temperatures, it can be restored by slowly warming the product. The effectiveness is not affected hereby. Prevent release to the environment by adequate secondary containment design and use of appropriate spill control procedures.

7.3 Specific end use(s) No further relevant information available.

# Revision : 7.02.2018

# SECTION 8: Exposure controls/personal protection

# 8.1 Control parameters

Components with critical values that require monitoring at the workplace: 67-63-0 propan-2-ol (10 – 25%)	
WEL (Great Britain)	Short-term value: 1250 mg/m3, 500 ppm
	Long-term value: 999 mg/m3, 400 ppm

Additional information: Information valid at the time of review of safety data sheet.

# 8.2 Exposure controls - Personal protective equipment

# General protective and hygienic measures:

Use skin cream for skin protection.

Avoid contact with the eyes and the skin.

Do not inhale gases/fumes/aerosols.

Wash hands during work breaks and at the end of the shift.

Provide skin protection plan.

Respiratory protection: Not normally required - Filter A/P2. (DIN/EN 141)

# Protection of hands:

Chemical protective gloves according to DIN EN 374 with CE-labelling.

Check the condition of protective gloves after each use for any damages like holes, cuts or tears.

Do not wear protective gloves longer than necessary.

After use of gloves apply skin-cleaning agents and skin cosmetics.

Material of gloves: Nitrile rubber, NBR

**Penetration time of glove material:** Thickness: 0.4 mm; break-through time: 480 min; material: Nitrile; permeation: level 6

**Gloves made of the following materials are not suitable:** Gloves for mechanical protection do not provide protection against chemicals.

Eye protection:

Wear eye protection with side protection (EN166)

Revision : 7.02.2018

# **SECTION 10: Stability and reactivity**

**10.1 Reactivity:** None anticipated

10.2 Chemical stability: Stable under normal conditions

**Conditions to be avoided:** Before handling, the product should not be diluted or mixed with other chemicals, in order to avoid any negative influences on the ingredient(s).

to avoid any negative initiatices on the ingredient(s).

Minimum shelf life: 24 months from production date.

10.3 Possibility of hazardous reactions: No dangerous reactions known.

10.4 Conditions to avoid: No further relevant information available.

10.5 Incompatible materials: No further relevant information available.

**10.6 Hazardous decomposition products:** None, if storage and handling is done according to specification.

Revision : 7.02.2018

# **SECTION 11: Toxicological information**

11.1 Information on toxicological effects	
Acute toxicity:	Ingestion – Not Classified
	Calculated acute toxicity estimate (ATE) Calc ATE – 10204.08000
Acute toxicity – Skin contact:	Not classified
	Calculated acute toxicity estimate (ATE) Calc ATE – 22448.98000
Acute toxicity – Inhalation:	Not classified
Skin corrosion/irritation:	Causes skin irritation
Serious eye damage/irritation:	Causes serious eye damage
Sensitisation:	Non sensitising.
Results of studies	

# 7173-51-5 didecyldimethylammonium chloride

Dermal: OECD 404 (skin) corrosive (rabbit) (OECD 404)

### **Results of studies:**

7173-51-5 didecyldimethylammonium chloride

Sensitisation	OECD 406 (Buehler)	not sensitsing (Guinea pig) (OECD 406) S
		464
Germ cell mutagenicity:	Based on available data,	the classification criteria are not met.
Carcinogenicity:	Based on available data, the classification criteria are not met.	
Reproductive toxicity:	Based on available data, the classification criteria are not met.	

Reproductive toxicity:	Bused of available data, the blassification offend are not met.	
STOT-single exposure:	May cause drowsiness or dizziness.	
STOT-repeated exposure:	Based on available data, the classification criteria are not met.	
Aspiration hazard:	Based on available data, the classification criteria are not met.	

# **SECTION 12: Ecological information**

# 12.1 Toxicity

Aquatic toxi	Aquatic toxicity:	
EC50 /	0.06 mg/l (Daphnia)	
48h:	0.12 mg/l (Selenastrum capricornutum)	
EC50 /	0.97 mg/l (Brachydanio rerio)	
96h:		
LC50 / 96h:		
7 173-51-5 Didecyld	7 173-51-5 Didecyldimethylammonium chloride	

**Evaluation:** Toxic to aquatic life.

Toxicity on activated sludge organisms:

7173-51-5 Didecyldimethylammonium chloride: EC0 2 mg/l (Activated Sludge)

Evaluation: Depending on concentration, toxic effects on activated sludge organisms are possible.

12.2 Persistence and degradability

Safety Data Sheet according to 1907/2006/EC, Article 31

Trade name: Perma Cleanze Maintenance Spray

Revision : 7.02.2018

#### Degree of elimination: Biodegradability

7173-51-5 Didecyldimethylammonium chloride	
OECD 301 D Closed-Bottle-Test	> 70 % (Activated Sludge) (OECD 301 D) S 598

Evaluation: The component(s) is (are) rapidly biodegradable.

**Evaluation:** The substances are biodegradable/eliminable in activated sludge units.

### 2.3 Bioaccumulative potential

BCF / LogKow:	
7173-51-5 Didecyldimethylammonium chloride	
OECD 117 Log Kow (HPLC method)	(n-Octanol/water) (OECD 117) not determinable
OECD 305 Biokonzentrationsfaktor BCF	81 BCF (Fish) (OECD 305) literature

Evaluation: Not worth-mentioning accumulating in organisms

**12.4 Mobility in soil:** No further relevant information available.

### 12.5 Results of PBT and vPvB assessment

**PBT:** This mixture does not contain substances that meet the PBT-criteria of REACH, annex XIII.

vPvB: This mixture does not contain substances that meet the vPvB-criteria of REACH, annex XIII.

12.6 Other adverse effects Any other adverse effects on the environment are not expected.

### 12.7 Additional information

Metals and their compounds according Directive 2006/11/EC: None

European Water Framework Directive 2000/60/EC (WFD) dated 23.10.2000:N The product does not contain any

priority substances according WFD that require a water monitoring.

# Absorbable organic halogen compounds (AOX - DIN EN ISO 9562):

The product does not contain substances, which can influence the AOX of waste water.

Care should be paid to properly washing out the chloride when performing the AOX method.

# **SECTION 13: Disposal considerations**

# 13.1 Waste treatment methods

### Recommendation

Dispose of contents in accordance with local, state or national legislation. Send to a licensed recycler, reclaimer or incinerator.

### Contaminated packaging:

Recommendation: Packaging can be reused or recycled after cleaning.

Recommended cleaning agent: Water, if necessary with cleaning agent.

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture National regulations:

# Information about limitation of use:

Take note of Directive 94/33/EC on the protection of young people at work.

Take note of Directive 92/85/EC on the safety and health of pregnant women at work.

### Regulations which may apply in event of accident: Control of Major Accident Hazards (COMAH)

Critical quantity values according to the regulations on accidents (Seveso Directive) should be adhered to.

PCS (IRL): 99558

**HSE: (UK):** 10585

Indication of VOC:

VOC according to Directive 1999/13/EC: VOC-value: 20 % (calculated)

VOC according to Decopaint Directive (2004/42/EC): Max. VOC-content: 181 g/L.

SVOC according to EU-Ecolabel for interior and exterior paints (2014/312/EU): This product does not contain any

Semi Volatile Organic Compounds in the definition of the 2014/312/EU.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

# **SECTION 16: Other information**

This data is based on our current knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally valid contractual relationship.

### **Relevant phrases**

H302 Harmful if swallowed.

H318 Causes serious eye damage.

H400 Very toxic to aquatic life.

H412 Harmful to aquatic life with long lasting effects.

### **Training hints**

Further information regarding the directions for use can be found in the Product Data Sheet.

### Classification according to Regulation (EC) No 1272/2008

The classification includes the relevant available information about the mixture or the substances contained therein.

The evaluation of the available information within the scope of classification refers to the forms and aggregate states in which the mixture has been placed on the market and will be used most likely.

Contact for technical information: Biocides: support@benzsoftwash.com
