SAFETY EYEWEAR

AOSafety has been producing safety eyewear for over 100 years. Today they continue to engineer eyewear with the highest performance levels, outstanding optics, and design styling that boosts compliance.

AOSafety Maxim™ Sport

Exclusive dual aspheric plano lens for distortion-free vision.

- Dual-aspheric lens for prescription quality clarity
- Adjustable temple lengths and lens angles
- Anti-Fog Hard Coat lens resists scratching, static and chemical attack
- Superior orbital eye socket coverage and integral, cushioned browguard
- Meets ANSI Z87.1-2003 and CSA Z 94.3 standards and exceeds Military and exceeds Military V₀ test regimen for high velocity impact.

AOSafety Metaliks™ Sport

Sleek styling with brushed nickel frame.

- Optimum front and side coverage
- Soft, universal-fit nosepiece & rubber temple tips
- Anti-Fog Hard Coat with clear or gray lens
- Hard Coat with Indoor/Outdoor lens
- Meets ANSI Z87.1-2003, CSA Z94.3 standards

RESPIRATORS

A leading name in respiratory products, AOSafety products are both comfortable and effective choices for airport applications.

AOSafety QuickLatch® Air Purifying Half Mask Respirators

Patented Easy-On-Off-Latch System.

- NIOSH approved
- Mask goes on and off with one hand
- Contoured flange for better fit and comfort
- No straps to adjust
- Available in silicone or TPR (man made rubber)

AOSafety

AOSafety N95 Cup Style Particulate Respirators

Available with or without valve.

- NIOSH approved protection for dusts and most airborne particulates
- Durable double shell construction
- Large breathing area
- Valved version for easier exhalation

AOSafety Pleats Plus® Particulate Respirators

Easier breathing, better communications.

- NIOSH approved protection for dusts and most airborne particulates
- Twice the surface area of other masks for easier breathing
- Flexes with mouth movements for better fitting comfort
- Breathable fiber means cooler wear and reduced moisture build-up

COMMUNICATION HEADSETS

Peltor has led the way in two-way headsets for over 50 years by combining state-of-the-art electronics and hearing protection to provide outstanding communication capabilities in very high noise environments. Airports around the world depend on Peltor for reliable, glitch free and easy to use performance.

Peltor® Ground Mechanics Headsets

With an In-Line or Cup Mounted PTT.

Peltor Ground Mechanic Headsets are designed to provide clear communications and hearing protection during high noise push-back and ground support operations. Plugging into the exterior aircraft intercom jack, two hardwired options include an in-line belt station push-to-talk (PTT) or cup mounted PTT

New & Improved Features include:

- Choose Black or High-Viz Cup Colors
- Folding headband for compact storage
- Multiple lengths, curly or straight, extension cable assemblies available
- Durable, easy-to-grip plug assembly
- Noise canceling microphone
- NRR 25 dB
