

Automotive Window Film Basic Training

Class Information

This three day intro class is designed for the new installer(s) with little or no experience. Each student/trainee will leave with the knowledge and hands-on practice with installing 3M Obsidian and Ceramic films.

Students will learn:

- Tools of the trade and how to use them correctly
- Proper cleaning techniques
- Installation techniques
- Plotter/3M Cutting Software functionality
 - Hand cutting not available in this class (Preferred class only)

While we will provide the best training possible, we do not expect our students to be 'window tint masters' by the end of class. It takes many years of hard work and diligence to truly master this trade.

By the end of this class our expectation is for you to have the knowledge and the ability to shrink and install window film on the sides of a car and shrink and install a rear window.
