## Vera-Link Amplifier Vera-Fi Audio, LLC

<b>Troubleshooting Guide:</b>	
I don't see the option to connect to Vera-Link	<ul style="list-style-type: none"> <li>Confirm that both modules are plugged in and powered on. You should see a blue light on the front faceplate of each amplifier</li> <li>Ensure that no other device is already paired to Vera-Link</li> </ul>
Amplifiers did not pair or operating as single (mono) channel	<ul style="list-style-type: none"> <li>Disconnect phone Bluetooth and let amplifiers pair first</li> <li>Plug in left amplifier first before the right channel and listen for connection</li> <li>Reset or refresh the Bluetooth connections on your device</li> </ul>
No light or power from amplifiers	<ul style="list-style-type: none"> <li>Verify that DC power supply is plugged into a live outlet and LED is illuminated on power supplies</li> <li>Double check DC connection to amplifier, fit should be snug</li> </ul>
Blinking from amplifier(s)	<ul style="list-style-type: none"> <li>Once the amplifiers pair to each other, the left amplifier will be a solid blue light, while the right amplifier will slowly blink. If both amplifiers are blinking, check if the amplifiers paired properly.</li> </ul>

## **What's Included:**

**Amplifier Modules X2**

*(Left and Right)*

**DC Power Supply X2**

with IEC power cable

**Speaker Cables X2**

## **Instructions for Use:**

Thank you for your purchase of Vera - Link! Music is just a couple short steps away.

- 1.** Take each amplifier module and mount it to the back of its respective speaker with the included Velcro strips. The front metal plates will tell you if it is Left or Right channel.
- 2.** Connect the speaker cables to the bottom of the amplifier, and the banana plugs into the binding posts of your speakers.
- 3.** Plug in the power supplies to the wall and the barrel into the power port on the bottom of the amplifier. Plug in the left amplifier first, followed by the right. You should hear a tone once the amplifiers pair to each other.
- 4.** From any bluetooth capable music streamer or phone, go to devices and select "VeraLink by Vera-Fi Audio". Another tone will play on successful pairing.

*Thats it! Select a song to start streaming to Vera-Link!*
