RINGS SIZE CHART

Do you want to be sure about the size of your new ring?

1. Get your favorite ring or any ring that fits perfectly on your finger.

2. Print the measurement table, making sure that the "Fit to size" option in the printer dialog box is disabled. Use a ruler to verify that the measurement table is at 100% scale.

3. Place the ring on the circles on the chart to determine the exact size. The inner circumference of the ring must coincide perfectly with the diameter of the selected circle.

The sizes of the rings indicated on the COI Florence product sheets refer to the Italian (IT) sizes.

1cm

US (USA)	6
IT (Italy)	**12**
ISO (Europe)	52
