"if our chairs could talk"

MYOUR

The MODI' system is a "chameleonic" furnishing genius: its modular design means it can be transformed and adapted for any occasion. Constructed from a series of basic polyurethane modules that are set into a polyethylene base, MODI' can be mounted and modified as desired to create armchairs, sofas and ottomans. The soft polyurethane cushion with slipcovers makes the seat extremely comfortable. With proportions that clearly take up classic lines and a wide range of leather upholstery, MODI' can satisfy countless needs in any setting.
