ENERPAC 

ENERPAC 11-Series, Ultra-High Pressure Hand Pumps

Pressure Capacity
40,000 PSI

Additional Details:

Reservoir: 45 - 60 in³

Flow: .037 - .152 in³/stroke

Pres. Range: 10- 40,000 psi

Pump Type	Useable Oil Capacity	Model Number	Pressure Rating*		Oil Displacement per Stroke		Maximum Handle Effort	Piston Stroke	Weight
			psi		in3				
Single-speed	45	11-100	-	10,000	-	.152	120	.78	22
	45	11-400	-	40,000	-	.038	120	.78	22

- 303 Stainless steel construction on the 11-100 and 11-400 hand pump models enable use with many different fluids, such as distilled water, alcohol, diesters, silicones, soluble oils and petroleum
- Large release knob for improved control of pressure release
- Outlet ports are 3/4"-16 cone for 40,000 psi rating

Contact Hydro Technology Systems (HTS) to discuss the which hand pump best suites your application needs. HTS has over 30 years technical experience serving industrial customers globally.
