

INSTACLUTCH™

**MQ WHITEMAN**

The leader in  
concrete finishing.

**MQ Whiteman** proudly introduces the new InstaClutch™ line of walk-behind power trowels. Engineered to provide the performance you expect and the reliability you depend upon. This innovative clutch system immediately disengages the drive system should the operator release the handle.

- **Advanced friction clutch** stops the unit within a quarter of a turn if the operator releases the handle at full RPM.
- **Eliminates the need** to throttle engine down during momentary work stoppages.
- **Four-blade spider assembly** features economically replaceable wear parts that reduce maintenance costs over the life of the machine.
- **Proven gearbox durability** delivers years of trouble-free operation.
- **Handle assemblies** for the InstaClutch system include a Standard Fine Pitch Control (SXHC) or a QuickPitch option (QXHC).

**Height adjustable handle features ergonomic hand controls.**
