

BarriAire Gold Mask

Features & Benefits

- ✓ The Nomex® Nano Flex barrier provides a filtration efficiency of 96% against particles between 0.1 and 1.0 microns in size and increases to 98.5% with laundering.
- ✓ Can be laundered in excess of 100-times for repeated use.
- ✓ Jersey knit fabric with 55% mechanical stretch helps mask fit to form of face and fully envelops the Nano Flex barrier ensuring long-sustained protection & durability.
- ✓ Outer fabric features a proprietary DWR finish to reduce build-up of toxic residue and enhance the release of contaminants during washing.
- ✓ Inner fabric is engineered to pull moisture from skin for quick evaporation & rapid drying time for superior comfort.
- ✓ Adjustable nose bridge enables tight seal for added protection, minimizes fogging of protective eyewear and permits unrestricted vision by staying in place.
- ✓ Reduces to pocket size when folded to be easily carried at all times for immediate use.
- ✓ BarriAire™ Gold quilted composite material is inherently flame-resistant, exceeds NFPA 1971, 2112, and meets the NFPA 70E standard.

Applications & Uses

- ✓ Any exterior operations outside the “hot zone” during structure fires
- ✓ Salvage & overhaul
- ✓ Brush fires
- ✓ Fire investigation
- ✓ Patient transport
- ✓ Vehicle extrication
- ✓ Urban Search and Rescue

Available Options

- ✓ 3M Segmented Lime/Yellow Triple Trim
- ✓ Already highly air permeable at 23 CFM, the BarriAire™ Gold Mask with Nomex® Nano Flex is also offered with an exhalation valve for added comfort.
