

COMPOSITE CLEANER HS

CLEANING PRODUCT FOR COMPOSITE BOARDS

Composite Cleaner HS is a powerful and effective product for the cleaning of composite, man-made and manufactured boards including veneers. It effectively removes grease and wine stains, rings, mould, mildew and dirt without bleaching the surface.

For general cleaning mix 1-litre with 9-litres of water and apply to the surface. If a heavier clean is needed mix 1-litre with 3 - 3.5-litres of water and apply to the surface. For the removal of grease and oil mix 1-litre with 2.5-litres of water and apply to the surface. Allow to stand for 5 - 10 minutes (do not allow it to dry) and rub gently with a brush before rinsing the area with water. We recommend using hot water to make the cleaning solution.

Please remember that this is a very effective and powerful cleaning product therefore Composite Cleaner HS should not be applied in bright, direct sunshine or staining could occur.

TECHNICAL CHARACTERISTICS

- APPEARANCE - Colourless liquid
- PH At 5% - 10.5
- SOLUBILITY - Total in water
- DENSITY (20°C) - 1.03

We cannot be held liable for any application or use that does not comply with our instructions.
