

Installation

Colour Caps for 8mm Hex Head Screws

Our HC19 Colour Caps are designed to fit over an 8mm hex head screw to cover the screw and help it to blend in with the Sheet design. Our TEK Screw Colour Caps will give a more professional look to any installation and provide the finishing touch for your roofing or cladding project.

TEK Screw Colour Caps

At Cladco, we provide Colour Caps that will match all our profiled Sheeting. These Caps sit on top of the Screws to create an attractive aesthetic effect and are one of many great products we can provide.
