Conservation Range

Conservation Red

Conservation Weathered

Introducing The Conservation Range of Handmade Clay Roof Tiles.

Available in two distinctive colours, created by using a very fine sand, The Conservation Weathered; A natural warm tone, achieving an instant mellow and settled look and The Conservation Red; perfect for vertical tiling especially suited for villages and hamlets with olde worlde vernacular charm.

Manufactured using high quality clay, achieving high strength and durability properties, giving homeowners and contractors peace of mind for many years to come. The conservation range comes with a complete set of associated fittings, including Hog Back Ridge, Half Round Ridge, Bonnet Hips, Valley tiles and External Angles.

Bat Tiles

3 Piece BAT Access set is available in Medium and Dark Heritage colours

The Bat Access Set presents a bat optimised entrance to the under-felt, or to the loft when the under-felt is opened.

For use within the roof tiles, the top 'tunnel' tile offers the bat an 18mm high x 165mm long (approx.) tunnel to an entrance hole in the under tiles. This allows the bat to crawl into the roost area.

An advantage of these tiles is that it provides the maximum amount of natural air flow under the tiles. The carefully designed access, along with this air flow between the tiles and the under-felt, aims to provide conditions where the bats are protected from any extremes of heat.

Ideal for areas of special architectural or historic interest to help maintain the character or appearance of which is desirable to preserve or enhance

Heritage Clay Tiles Ltd

Peg Tiles

Peg tiles are an important part of our historical roof scape. Planning and conservation officers are indeed the guardians of our roof heritage.

As such, they have approved and recommended the use of Heritage peg tiles in such situations throughout the United Kingdom for many historical and listed buildings.

Heritage Clay Tiles Ltd has created a range of tiles to meet the demands of both planning and conservation officers alike. Our **nib-less** peg tiles are available in natural rustic tones and are of such quality as to grace any prestigious project where restoration is of paramount importance.

Ornamental Tiles

Ornamental Club Clay Tile

The Heritage Ornamental Club Clay Tiles are available in 3 colours **Red Medium** & **Dark** that are compatible with the **Heritage Classic Range** and **Heritage Clayhall Range**.

Ornamental Club Clay Tiles have been carefully designed with a **continuous nib** feature which lends itself to design flexibility in main roof and vertical situations

With ornate decorative effects being incorporated into more and more roof designs these days.

Heritage Clay Tiles Ltd offer ornamental club clay tiles with a guaranteed performance in all weathers to 35° pitch. This guarantee is offered across all of our ornamental clay tile ranges.

All our ornamental club clay tiles will meet the stringent requirements of BS 5534: 2003 Code of practice for slating and tiling, providing our clay tile fixing recommendations are followed.

Technical

All Heritage Clay Tiles are independently tested and approved by Lucideon, who have over fifty years experience in conducting material tests. The tests involve subjecting the tiles to frequent cycles of soaking, freezing and thawing. The criteria for achieving a pass is stringent as the rigorous tests really push the tiles to the limit.

Our current test results can be viewed on our website at www.heritagetiles.co.uk. We are proud of the high pass rates our tiles achieve and encourage our customers to compare these results with other companies when making a product choice.

Description	Roof	Vertical
Minimum Roof Pitch	35°	75°
Headlap (Minimum)	65mm	38mm
Batten Spacing at Maximum Gauge	100mm	114mm

Covering Capacity	60 per m2	53 per m2
Cover Width	265 x 165mm	265 x 165mm
Weight as Laid	75kg per m2	66.25kg per m2
Battens per M2	10m	8.7m
Batten Size	38 x 25mm	38 x 25mm
Recommended Nail Type	40 x 2.65mm Alloy Clout	40 x 2.65mm Alloy Clout

Recommendations

Tiles to be laid in accordance with BS 5534

Tiles laid to be drawn from a minimum of 3 separate pallets to ensure best effect

Tiles are delivered on non returnable shroud wrapped pallets

Pallets on site should be on firm, dry and level ground, no more than 2 pallets high

Due to limitations of the print process, colours should be selected from actual samples

Quality Assurance

Heritage tiles conform to BS EN 1304:2005 and BS EN 539-2:2013 and are manufactured under a Quality Management System, which meets the requirements of ISO:9001 2008.

Our materials and finished products are tested by our quality control staff at every stage of the production process

Clayhall Red

Case Study

Location: Chichester

This project was completed in 2016 using 21,000 Heritage Tiles best quality **Clayhall reds**.

The Clayhall range has been carefully designed with a **continuous nib** feature which lends itself to design flexibility in main roof and vertical situations

The tiles were chosen and approved by the local authorities for this prestigious new build project within the historic town of Chichester for their quality and aesthetic appearance which compliments surrounding properties which have clay tiles on for many years.

This mews style development within the heart of Chichester offers the appearance of a weathered roof whilst being less than 12 months from completion using a new tile with a **50 year guarantee**.

At **Heritage Tiles** we offer a complimentary tile match service along with samples and advice of each specific project, no matter what size.
