

# UNIVERSAL dry verge

# UNIVERSAL dry verge

The brand new Marley Eternit Universal Dry Verge system has been designed to make verge detailing secure, BS 5534-compliant and elegantly simple.

Compatible with more tile types than any other – regardless of manufacturer – it's faster and easier to install, more weather tight, durable and secure than ever.

01 Bendable hinge accommodates all profiles

02 Unique rail system allows for different tile sizes and profiles

03 Filler piece prevents ingress of birds and insects

04 Unique starter bracket to give easiest and most flexible verge fixing

05 Fixing hole cluster creates increased compatibility

06 Multiple, unique drainage channels prevent staining from water run off

The Marley Eternit Universal dry verge system provides a strong, weathertight and maintenance-free verge.

The dry verge is truly universal as it is compatible with other manufacturers tiles as well as our own.

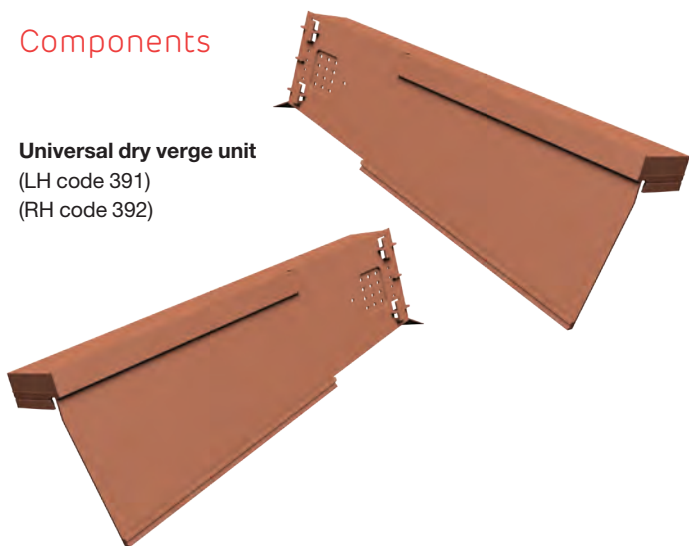

Individual verge units retain the stepped appearance of a traditional mortar bedded verge while mechanically fixing the verge tiles.

- > Universal dry verge acts as a single mechanical fixing in accordance with BS 5534: 2014
- > High grade polypropylene
- > Excellent UV stability
- > Excellent rigidity
- > Excellent resistance to freeze/thaw weather cycles
- > Extra fixing and nail holes for maximum compatibility
- > Unique drainage features prevent run off staining
- > Unique rail system and bendable leading edge hinge accommodate wide range of tile profiles and sizes
- > Universal dry verge starter kit offers easy and flexible assembly
