

Old Hollow Tile 451

Original
clay pantile

Old Hollow Tile 451

TECHNICAL DATA

Model	Old Hollow Tile 451
Minimum pitch	25°
Tiles/m ²	± 19
Weight/tile	± 2.65 kg
Weight/m ²	± 50 kg
Crushing strength	> 1200 N (EN538)
Water impermeability	≤ 0.50 cm ³ /cm ² .d (EN539-1)
Frost resistance	guarantee for 30 years
Batten size	38 x 25 mm for rafters not exceeding 450 mm centres 50 x 25 mm for rafters not exceeding 600 mm centres
Nails	aluminium alloy 45 mm long, 3.35 mm diameter (BS 1202)

DIMENSIONS

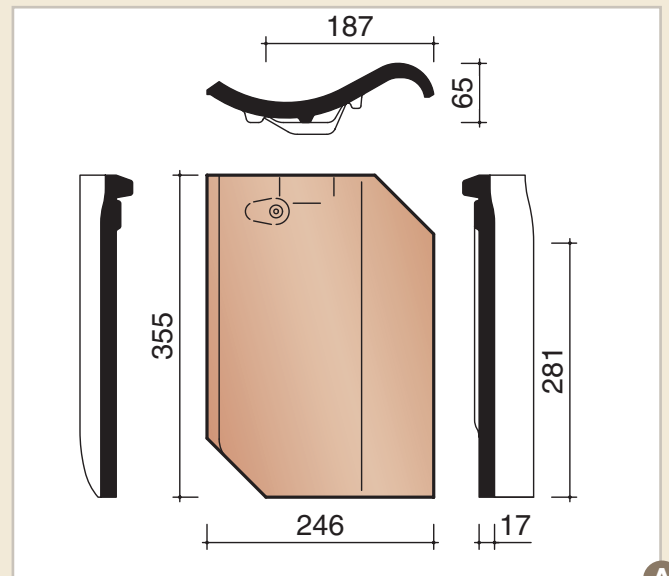

Effective Cover Width

Length/Gauge	± 281 mm
Width/Gauge	± 187 mm

Overall Size

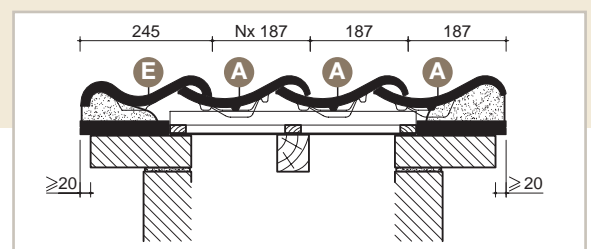

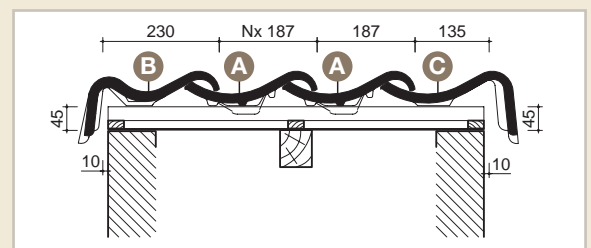

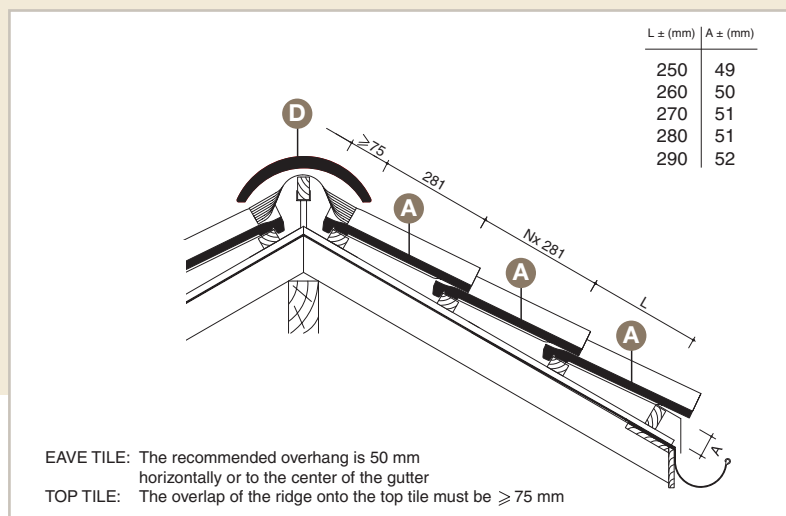

Length	± 355 mm
Width	± 246 mm

Manufactured to BS EN 1304

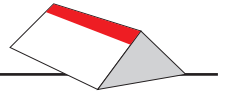

A

ROOF DETAILS

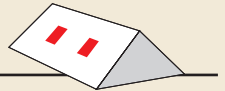

This document does not imply a contract. The colours used in this folder show the natural tint of our clay roof tiles subject to the limitations of the printing process. As clay roof tiles are natural materials, slight variations in colour may occur between batches of tiles. We recommend that they should be taken from several pallets at the same time and mixed at random on the roof. Wienerberger reserves the right to alter the range and the technical data. Dimensions are approximate.

Victorian and Victorian Braised Blue Tile 451

Clay pantiles with a reclaimed appearance supported by modern technology for renovation and new build projects

The patina of antique tiles

The authentic weathered look of the pressed Old Hollow 451 clay pantiles results from the specialist treatment of tiles. This produces the typical patina of centuries-old roof tiles. The subtle interplay of the different shades and effects gives every building its own character. There are two versions to choose from: Victorian, on a red base tile and Victorian Braised Blue, on a blue to grey base tile. However, they are at their very best when the two versions are mixed. The exact composition of the mix is of course, a matter of individual taste.

Victorian tile 451: The complete, economical and safe alternative to old reclaimed clay pantiles

- 30-year frost resistance guarantee, unheard of with reclaimed clay pantiles.
- Perfectly matched appearance for accessories, difficult with reclaimed clay pantiles.
- Total size control and nail hole positions ensure a completely watertight roofing layer, difficult with reclaimed clay pantiles.
- Old Hollow 451 pantiles with guaranteed quality, uniformity of size and shape, and a full range of matching accessories.

Victorian Braised Blue pantile

When clay roof tiles are braised, oxygen is removed during the firing process. This gives the tiles a typical bluish grey colour, which penetrates deep into the clay. The shades of the old hollow tiles are blended from a subtle collection of grey, black with lighter weathered patches.

Victorian pantile

These tiles are multi-coloured, ranging from bright natural red with grey to black with lighter weathered patches on their surface.

Natural Red (600)

Amarant (848)

Rustic (872)

Anthracite (736)

Victorian (878)

Victorian Braised Blue (714)

Braised Blue (706)
