

OFT 1 Flat Roof Vent/Terminal & OFT 2 Breather Vent

Product features and benefits

- Large free vent area/Low Pa resistance
- Can be used with torch on felt
- Suitable to be installed with Glass Fibre (GRP)
- Suitable for cooker extractors when installed with the correct ducting
- More aesthetically pleasing with a less obtrusive stack above the roofline
- The stack cap is mechanically fixed so more secure when installed in extreme weathers, but can be removed for servicing purposes
- Also available as an insulated version, to help reduce condensation
- Single box quantities

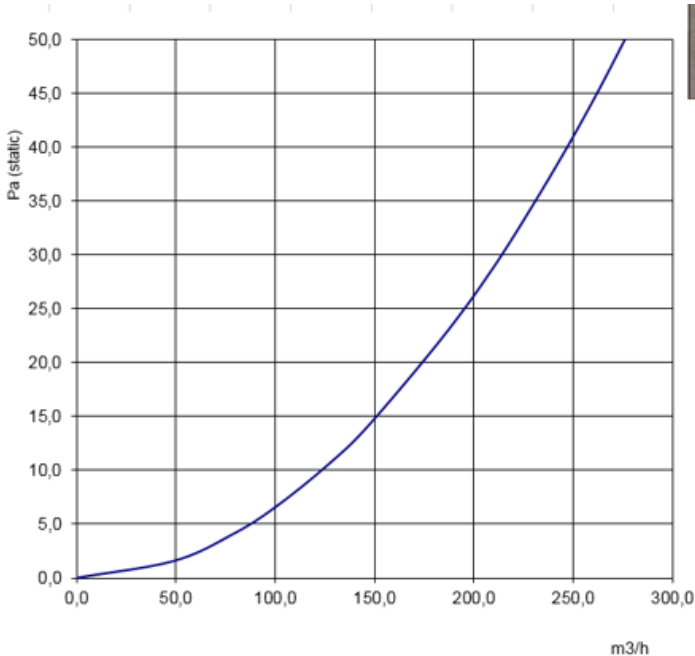

Materials

- Cap & Grill Polypropylene
- Flashing Aluminium
- Stack Pipe Polypropylene
