Project: Type: Notes:

with KETRA' S30 Tunable Spectrum LED

Unique Lighting Solutions

The AVERE® 5 PAR 30 is proudly built in the U.S.A. from machined aircraft-grade aluminum. The fixture delivers flexibility with the ability to use any standard or wireless PAR 30 bulb, the option of an Edison or GU24 base, and the IP65, UL Outdoor Rating. This versatility plus the superior build quality sets this striking fixture apart.

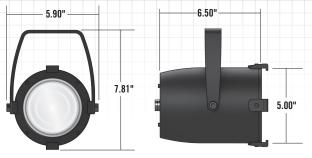

The KETRA bulb is an all-encompassing LED solution with the ability to render 90+ CRI white light, saturated colors and pastels from a fully mixed, single point source. KETRA's custom driver chip and optics incorporate closed-loop thermal and optical feedback. Each lamp is wirelessly controlled and individually addressable through KETRA's accompanying software.

Our lighting experts and engineers will consult with you on ways to use our standard products or design custom solutions. Let our team help you create the design you envisioned. **Together we can make great things**.

Weight: 3.8 lbs.

KETRA S30 Tunable Spectrum LED: 15° Beam					
Distance Feet (m)	2 (0.60)	4 (1.21)	6 (1.82)	8 (2.43)	10 (3.04)

All information is based on featured bulb. Bulbs priced separately.

Fixture Features:

- PAR 30
- Base: E26 Screw or GU24 Pin
- Max Bulb: 50W
- Composite Back Plate for Wireless Control of Bulbs
- IP65; UL Outdoor Rated, Locations 4 and 6 Suitable for Mount Within 1.2m of Ground
- Stainless Steel Hardware
- Machined Aircraft-grade Aluminum Housing
- Custom RAL Colors and Housing Design Available

Bulb Features:

- KETRA S30 Tunable Spectrum LED
- Beams: 15°, 25°, 40°, 60° and 90°
- Color Rendering Index: 90
- Lumens: 800lm or 1050lm
- Power Consumption: 17W
- Closed-loop Color Point Maintenance
- Fully Tunable Spectrum Delivers White Light, Pastels and Saturated Colors
- On-board Wireless Control
- Wireless and TRIAC Dimmable to 0.1%
