

# STENCILS

Stencils from Apollo MFG

## Standard or Custom Stencils

A custom-made, reusable stencil can be made for a fraction of the cost of vinyl lettering. Combine a standard stencil with a custom stencil of your company logo to ensure your gear is always identifiable.

Our stencils can help:

- Create logos
- Identify gear
- Mark road cases, pallets, boxes, bins and crates
- Produce industrial signage such as parking lot markings and building signage
- Decorate your home or office

**Stencils can be used year after year and save you money!**
