CO-SLEEPER MODE

The crib can be used next to parent bed (co-sleeping mode).

WARNING: IMPORTANT FOR THE SAFETY OF YOUR CHILD: this method is only possible with bed types that comply with all of the conditions described in this paragraph.

WARNING: THE GAP BETWEEN PARENT BED AND BABY CRIB MUST NOT BE BIGGER THAN 13MM.

ALWAYS KEEP THE BABY CRIB AND ADULT BED IS HORIZONTAL AS SHOWED ON BELOW PICTURE.

Always make sure baby crib open side rail no longer higher (at or below) adult bed height range during bedside mode.

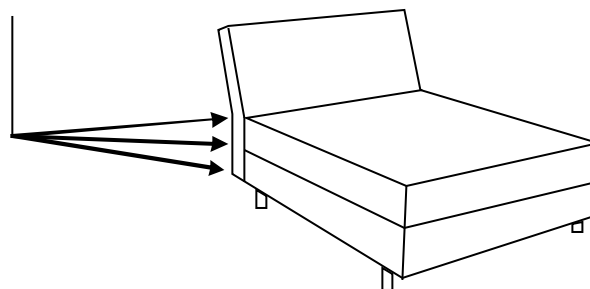

This bedside sleeper is designed for use only with adult beds that are between 34cm to 49cm from floor to top of adult mattress.

This product can not be used with adult bed that mattress, box springs not in line with the frame.

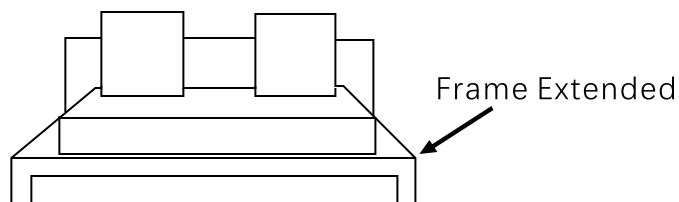

This product can be used with adult bed that mattress, box spring in line with frame. see below picture.

A bedside sleeper is designed to provide a sleeping area for an infant until he or she begins to push up on hands and knees or approximately 5 months of age. Move your child to another sleeping product when your child reaches this stage.

Mattress, Boxsprings & Frame aligned

ACCEPTABLE BED FRAME IN-LINE

UNACCEPTABLE BED,
MATTRESS, BOXSPRING & FRAME NOT IN-LINE

WARNING: Do not use this bassinet if you cannot exactly follow the accompanying instructions. Failure to follow these warnings and instructions could result in serious injury or death.

SUFFOCATION HAZARD

Infants have suffocated:

- In gaps between extra padding, a mattress (too small or too thick) and product sides.

- On soft bedding. Use only the pad provided by the manufacturer that is no thicker than 25 mm (1 in) and is of such a size that, when pushed against any side of the product, it does not leave a gap of more than 25 mm (1 in) between the mattress and sides.

- NEVER add a pillow, comforter, or another mattress for padding.

FALL HAZARD: To help prevent falls, DO NOT use this product when the infant begins to push up on hands and knees, or can roll over, or has reached manufacture's recommended maximum weight of 6.9kg (15lb), whichever comes first.

- Always use product on the floor. Never use on an elevated surface.

- To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

- Always attach all provided fasteners tightly according to the instruction. Check frequently. Do not use if there are any loose or missing parts or signs of damage. Do not substitute parts. Contact the manufacturer for replacement parts.

- Toys are not to be "mouthed" by the baby and should be positioned clearly out of reach of the baby's face and mouth.

- Do not place medication, small toys, small items, cords, straps or similar items that could become wound around the child's neck in or near this product and do not place product near a window, blind, patio door, heater, or power outlet.

- If a sheet is used with the pad use only the one provided by manufacturer or one specifically the dimension of the bassinet mattress.

- To avoid death from the infant's neck being caught on the top rail on the side that is next to the adult bed, the top rail must be no higher than the adult bed mattress.

The attachment system must **ALWAYS** be used in bedside sleeper mode.

(15)

(16)

(17)

(18)

In particular the side support of the crib should always be put close to the Parent's mattress and the mattress should always be aligned with the height of the side support for restraint of the crib.

WARNING: Check to make sure that the crib in the co-sleeping mode does not interfere with the parent's bed.

WARNING: During use, make sure that the parents bed sheets, blankets etc. Do not enter and cover the interior of the crib.

- Open the side of the crib with the window using the side zips and open them completely (fig.14).
- Then press the removable tubular structure release button and remove partially on one side and then on the other (fig15.16.17).

WARNING: use the crib with the tube lowered, only in the co-sleeping Mode.

- Move the crib close to the parent's bed and check the height of crib compared with the mattress of the bed.

WARNING: the height of the parent's mattress should always be more than that of the side support for containment of the crib.

WARNING: in the co-sleeping mode the 2 legs of the crib should always be adjusted to the same height.

Entrapment Hazard—To prevent death from entrapment, bedside sleeper must be properly secured to adult bed using the attachment system.

(1) There must be no more than 1/2 in. (13 mm) gap between bedside sleeper and adult bed.

(2) Check tightness before each use by pulling bedside sleeper in a direction away from adult bed.

(3) If gap exceeds 1/2 in. (13 mm), DO NOT use product.

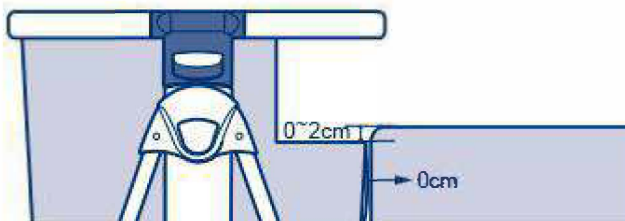

Do not fill the gap with pillows, blankets or other items that are suffocation hazards.

(4) Assemble product according to manufacturer's instructions for ANY use mode—bedside sleeper as well as the bassinet or play yard modes, or both.

(5) Always use ALL required parts for each use mode.

Check instruction manual for a list of required parts. Periodically check product for loose, damaged, or missing parts.

(6) To avoid death from the infant's neck being caught on the top rail on the side that is next to the adult bed, the top rail must be no higher than the adult bed mattress.

WARNING: The attachment strap must always be used in bedside sleeper mode.

WARNING: Use of the product is only permitted with beds and/or mattresses with straight sides. Use of the product with round beds and/or mattresses or water beds is not permitted. **WARNING:** When the product is used in the Co-Sleeping Mode (it should always be positioned next to the long side of access to the bed. DO NOT position the product to the head or bottom of the bed.)

The cot do not swing; In order to make it stable on the flat level when baby in the crib, we have two support frame on the base of cot, to ensure the baby not drop down and never swing on the crib cot ;

WARNING: This crib swing function must be operated by adult, whenever before the adult left, he must close the swing function in order not to make crib rollover.

MAINTENANCE ADVICE

The crib and the mattress have a resistant fabric cover, which is completely removable and Washable.

The removal/application activities should be carried out by adults only. On a regular basis check the condition of the product and the presence of any possible damage. In the case of damage do not use it and keep it out of the reach of children. For washing of the fabrics, carefully comply with the instructions indicated on the label.

For cleaning do not use solvents, abrasive products or aggressive products. After each wash check the resistance of the fabric and of the stitching

Hand wash in cold water

Do not bleach

Do not tumble dry

Do not iron

Do not dry cleaning

WARNING: During the removal and/or application of the lining, handle the fabric carefully in order to avoid accidental damage or tears.

WARNING: The removal and/or application operations may take a few minutes and should be carried out by an adult

(19)

(20)
