DUCDA2

• Black

## Dual Display – Up to 4K

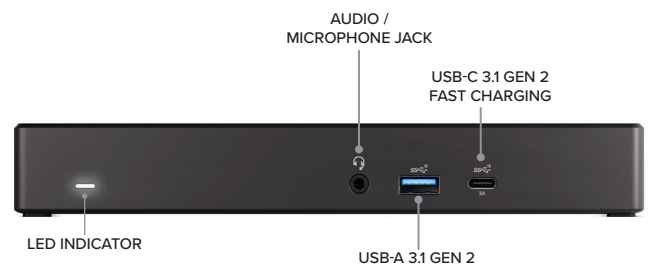

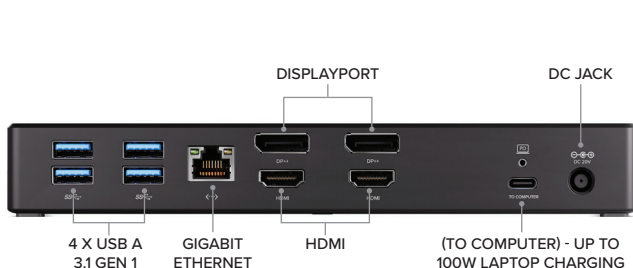

The DA2 dock can connect up to two external DisplayPort or HDMI displays at 4K resolutions for enhanced workstation display capabilities.

## 100W Laptop Charging / Power Delivery

When connected, the dock can charge laptops with up to 100W of power. This allows for a perfect solution to add multiple displays, USB accessories, Ethernet, headphone/mic and charge your laptop all at the same time. When connected to a host computer with USB-C ports that support USB Power Delivery, the dock will connect peripherals and charge the laptop over a single USB-C cable.

## Truly Universal All-in-One Connectivity

The DA2 docking station provides universal compatibility across Windows, Mac and Chromebook computers and laptops. Allowing modern USB-C equipped or older USB-A computers to be connected this dock enables IT professionals and organisations to deploy the DA2 docking station as a single solution across all users. The DA2 dock helps removes clutter and can power hot desking arrangements in any workspace environment.
