Compatibility

Foldable &  
Adjustable Height

Withstand Loads of  
Different Laptop

Ultra-Build  
Quality

With separate  
USB-C Hub

Portable and  
Lightweight

### Universal Compatibility

The Flex Stand is Adjustable & Portable Laptop Stand is designed with multiple adjustable angles to ensure the Laptop or MacBook sits in the most ideal field of view, whether you are at home or in the office.

Plug in the USB-C Hub connector into your MacBook Pro/Air USB-C port. With a Plug and Play design, the device should work automatically without the need of additional driver or software installation added USB-C hub. The basic function of the USB-C Hub is to connect to the USB-C MacBook & convert one USB-C port into multiple USB-A Port along with HDMI port which can be used to mirror or extend laptop screen into one monitor.

### Ultra-Build Quality

The Flex Adjustable & Portable Laptop Stand is crafted from high quality aluminium alloy materials and designed to guarantee a longer lifespan from daily wear and tear.
