

PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-000098-LIC
 ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #B5368

Sample **BUBBLEGUM BISCOTTI - BABY BURN OUT**

Sample ID SD230228-036 (66762)	Matrix Concentrate (Infusable Cannabis Good)
Tested for TORCH	
Sampled -	Received Feb 20, 2025
Analysis executed QMRUSH, CANX	Reported Mar 01, 2025

Laboratory note: The estimated concentration of the unknown peak in the sample is 11.99%. Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated DE products) from which we believe to be either (Δ⁸-THC or Δ⁹-THC. At this time there are no reference standards available for (Δ⁸-THC. (Δ⁸-THC is a different compound from the main (Δ⁹-THC cannabinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (Δ⁸-THC and Δ⁹-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (Δ⁸-THC and Δ⁹-THC with the majority, if not all, of the concentration being (Δ⁸-THC. Total (Δ⁸-THC Concentration is estimated to be 72.20%

CANX - Cannabinoids Analysis

Analyzed Mar 01, 2025 | Instrument HPLC
 Measurement Uncertainty at 95% confidence 7.006%

Analyte	LOD mg/g	LOQ mg/g	Result %	Result mg/g
11-Hydroxy-Δ ⁸ -Tetrahydrocannabinol (11-Hydro-Δ ⁸ -THCV)	0.015	0.041	ND	ND

*This report shall not be reproduced except in full, without the written approval of the lab. This report is for informational purposes only and should not be used to diagnose, treat or prevent any disease. Results are only for samples and bottles indicated. Results are reported as of the reporting date, unless otherwise indicated. When a result is reported, that result is intended to be in accordance with testing state and local laws. QC is required for the customer to be in compliance. The measurement of uncertainty is not included in the final test evaluation unless explicitly required by federal, state or local laws and/or the lab's required certificate of analysis. Measurement of uncertainty is available upon request.
